Let Apple Professional Services show you how Apple products can drive productivity

Whether you’ve just started integrating Apple products or have already deployed them, our senior-level engineers will ensure that you’re ready to support the growing number of employees using Apple devices. We work closely with your technology teams to create a comprehensive assessment of the environment and best practices for managing your devices.

Get the most from your Apple ecosystem — fast

Timing is critical, so we’ll provide immediate feedback onsite and deliver a detailed report with recommendations within two business weeks. The process includes:

• Preparation and planning calls to get started
• Up to four days of hands-on discovery sessions with your technology teams and other stakeholders about managing Mac and iOS devices
• An in-depth closing session covering key findings and actionable recommendations
• A formal readiness report customized for you based on our onsite discovery combined with our internal research, processes, tools, and methodologies
• Up to four hours of remote, post-engagement mentoring
• A progress check six weeks after the closing session
