

31% more productivity with Intel™ 8th Gen processors

Upgrade to the new Latitude laptops & 2-in-1's with Intel™ 8th Generation Quad-core processors designed for the way you really work. Get the most done in less time wherever you are.

Multi-task

Improved Office productivity – search, read, write, edit Microsoft Office files and Outlook emails; view and export large PowerPoint presentations to PDF.

Analyze Data

Faster data analysis – Use Excel to generate forecasts and create graphs or pivot tables; encrypt/decrypt sensitive files using WinZip and share.

Launch Apps Faster

Better responsiveness – Quickly launch and switch between applications; save a variety of large documents and install/uninstall apps in the background.

Productive all day long

Experience the same or better battery life and get more done between charges.
