SPEEDING UP THE DELIVERY OF HEALTHCARE SERVICES

San Vicente Fundación Hospital is a private, non-profit healthcare institution. A recognized leader in Colombia and Latin America, it treats over 40K patients annually.

USE CASES

- Handle over 4,500 clinical orders to manage procedures, laboratories, diagnostic images, and other medical services
- Speed up access to data and response time for SAP® healthcare and ERP systems
- Comply with data privacy rules that regulate the processing and protection of personal data
- Streamline operations to respond to surging demand from local and foreign patients

REQUIREMENTS

- Implement new platform without substantial up-front infrastructure investment
- Robust information system infrastructure and access to data in real time

- Support the speedy loading of massive data sets using a single platform
- Allow quick deployment of new servers, simplified administration, and optimal storage

SOLUTION

The hospital leveraged HPE GreenLake's infrastructure as a service model to build a platform on HPE Synergy and ConvergedSystem 500 for its SAP HANA® migration.

OUTCOMES

- Achieve cost efficiency and keep control of the environment through pay-per-use IT model
- Speed up the delivery of healthcare services

- Keep personal data within the hospital, supporting compliance
- Enable to meet changing needs and efficiently deliver healthcare into the future

KEY PARTNERS

- Intel®
- SAP
