

BUSINESS-CLASS PLATFORM BUILT FOR YOUR WORKFORCE

Discover the Intel vPro® platform designed to save time and lower costs with its built-in integrated performance, security, and manageability features, plus the stability to efficiently manage PC refresh cycles. It's time to boost productivity, help protect business assets, and manage your PC fleet from anywhere.

PERFORMANCE FOR PRODUCTIVITY

Intel vPro® processors offer a suite of power, performance, and connectivity technologies that help your employees handle the most demanding computing workloads.

SECURITY FROM CYBER THREATS

Hardware-enhanced security protection with Intel® Hardware Shield aids in protecting against firmware attacks, helping ensure a more secure computing experience across your entire PC fleet.

BUSINESS-CLASS MANAGEABILITY

Remotely discover, repair, and help protect your networked PC fleet for maximum uptime with Intel® Active Management Technology.

COST-EFFECTIVE STABILITY

The Intel® Stable Image Platform Program (Intel® SIPP) reduces the complexity of managing your PC fleet by minimizing component and driver updates.

Intel technologies' features and benefits depend on system configuration and may require enabled hardware, software, or service activation. Performance varies depending on system configuration. No product or component can be absolutely secure. Check with your system manufacturer or retailer or learn more at [intel.com](https://www.intel.com).

Cost reduction scenarios described are intended as examples of how a given product, in the specified circumstances and configurations, may affect future costs and provide cost savings. Circumstances will vary. Intel does not guarantee any costs or cost reduction.
