

# ThinkSystem SE350 Edge Server

Lenovo

The uniquely designed rugged server for operation at the Edge.

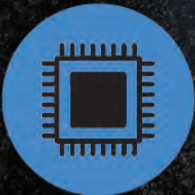

## The New Workhorse for the Edge

**Compact** - 1U, only 1/2 width, and short depth, designed to mount anywhere.

**Secure** - sensors for physical movement or tamper detection, and key encrypted storage drives.

**Performance** - Up to 16 cores with 256GB of RAM, and 16TB of solid state storage for Edge Computing and inferencing.

**Rugged** - designed for harsh environments, with dust filters and 0-55°C continuous operating temperature and extended life

**Connectivity** - 1G/10G base-T, 1G SFP, 10G SFP+ or using the built-in WiFi and cellular LTE.

**Management** - dedicated XClarity server management for remote support and web based activation with no need for keyboard/mouse.

# ThinkSystem SE350 Edge Server

## Edge Server Solutions

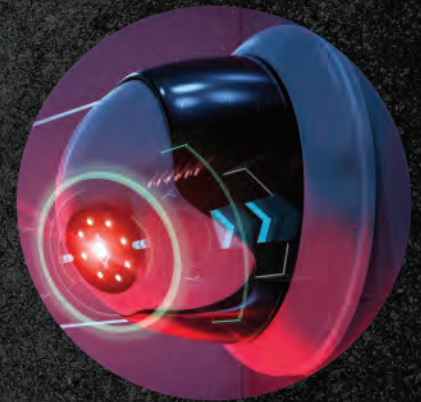

### Future Ready Store Infrastructure

An easy to deploy and manage solution for retail environments.

### Video Security and Surveillance

Designed to meet the unique compute and storage requirements of video applications.

### Enabling Vertical Solutions

Industrial automation, distribution, telecom, video and retail.
