Efficiency Guarantee

Gain more effective capacity for less

As part of the Data Visionary Loyalty Program, NetApp's unmatched Efficiency Guarantee promises you an agreed amount of space savings on predefined workloads. If you don't save the space, NetApp will make it right.

With the Efficiency Guarantee promotion, NetApp delivers:

- An efficient solution for your business to accelerate application performance

- New value by dramatically improving data center economics to future-proof your infrastructure

- A guarantee on AFF, SolidFire®, and NetApp® HCI, built for the new world of data and all its demands

Benefits

Optimal efficiency	Reduced cost per gigabyte and improved efficiency	Consolidated workloads
By switching to flash, you get state-of-the-art data reduction, including inline compression, deduplication, and compaction.	In just 2U of rack space, NetApp can delivers over 2.5PB of effective capacity, replacing multiple racks of existing hard disk drives.	Reduce your storage footprint by up to 19 times. Consolidate all your workloads in high-density, energy-efficient all-flash storage.

How It Works

NetApp guarantees data reduction of up to 7:1, based on your workloads.
- Tell us your workloads and required capacities.
- We'll size your storage based on your requirements and guarantee a workload-specific efficiency ratio.
