uniVERSE

One case. Endless possibilities.

Introducing the uniVERSE Case System. In partnership with the world's leading consumer electronic brands, OtterBox brings endless possibility to your tablet.

Coupled with trusted OtterBox protection, the uniVERSE Case System features an ever-growing collection of swappable modules — sensors, card readers, batteries, mounts, speakers and more.

PRODUCT STORY //

ONE CASE. ENDLESS POSSIBILITIES.

Expand your tablet and phone features with the OtterBox uniVERSE Case System. The uniVERSE system features two slotted rails under removable accent plates, letting you securely attach and easily swap out powerful partner modules without removing your case. The tablet case offers an additional attachment point at the center for mounting type solutions.

OtterBox partnered with the world's leading consumer electronic brands to create an entirely new platform. With the uniVERSE Case System, you get the specialized capabilities of our module partners — backed by trusted OtterBox protection.

Like every case we make, the uniVERSE case meets **OtterBox Certified Drop⁺ Protection** standards. So while you're swapping modules and expanding your tablet's capabilities, you always have confidence that your device is protected.

TABLET FEATURES //

EXPAND YOUR TABLET'S FEATURES WITH SWAPPABLE MODULES*

SMART SYSTEM

- **Attach:** multiple entry points to attach and swap modules
- **Protect:** swap modules without removing your case
- **Expand:** keyboards, card readers, memory, batteries — the list continues to grow

SLEEK + SECURE CASE

- **Slim, one-piece design:** low-profile fit, high-performance protection
- **Always on:** with or without a module, your case is in place to protect

OTTERBOX CERTIFIED DROP+ PROTECTION

#1 most trusted brand in smartphone protection**

Tested by us: 24+ tests and 238+ hours of testing

Meets US Military Standard for drop and shock (MIL-STD 810G)

Built for you: day in, day out — your device is protected

*uniVERSE modules sold separately

MSRP: \$59.95

iPhone 7 and iPhone 6/6s*
MSRP: \$49.95

B R Y D G E

The only keyboard to truly bring a MacBook like experience to the 9.7 inch iPad Pro, or iPad Air 1 or 2. Precision engineered out of high-grade aluminum, the Brydge 9.7 takes the style cues of the iPad and forms the perfect keyboard, creating the ultimate mobile productivity device.

FEATURES:

Patented Hinge Design - Two hinges firmly grip your iPad to hold it at angles from 0-180°, so you can set the angle that is most comfortable and optimal. When closed, the hinges hold and protect your iPad flat against small pads in the corners of the keyboard, while maintaining a slim, sleek design for ultimate portability.

Lightweight Aluminum Body - Forged out of a single piece of high-grade aluminum for added strength, beauty, and the premium feel you expect. The Brydge 9.7 only weighs 18oz to keep mobility simple and light, and a quality texture and feel to match your iPad.

Backlit Keys - LED Backlit keys that provide the ultimate typing experience in low to no light conditions. 3 levels of back light to meet your visibility demands. A feature that comes in very handy when you need it most.

Precision Engineered - Thin, light, and strong. The Brydge 9.7 combines beauty, strength, and the premium design you expect. Designed with the same width & height dimensions as the 9.7 inch iPad Pro and iPad Air 1 & 2, you'll experience a seamless integration of size, texture, and color. Weighing in at only 18 ounces, it creates an amazingly lightweight and powerful productivity device.

Availability: Available now

MSRP \$129.99

Get the measure of your world

SPIKE

FEATURES:

- Photo Measure: real-time measurements from a photo
- Point-to-Point: measure the distance between two targets
- Measure from the Spike app or from your desktop using the Spike Cloud
- Export and share captured photos and measurements
- Works with Apple iOS smartphones and tablets

TARGET USER(S) AND/OR USE CASE(S):

Industries where staff take measurements for estimation and sizing purposes. Ex. Construction, insurance, real estate, facility management, and sign and graphics for surveys and inspections.

VALUE PROPOSITION:

Spike allows you to measure an object simply by taking a photo with your smartphone or tablet. From that photo instantly create measurements, including height, width, area, and length.

Availability: End of Q1, 2017

MSRP \$499

MAGNETIC POSITIONING ARM

FEATURES:

- Programmed magnet allows for easy tablet locking and rotation
- Flexible arm allows for exact positioning
- Fits well into overall workplace tablet ecosystem, including charging and security formats
- C clamp requires no tools for attachment and enables a variety of attachment points
- Will withstand routine exposure to harsh cleaners

TARGET USERS:

Healthcare or other workers who need to access tablets while working

VALUE PROPOSITION:

Allows for hands-free workflow where two hands are needed

Availability: Q1, 2017

MSRP TBD
