NetShelter CX Product Family

Dell EMC Reference Architectures

Purpose-built and pre-validated solutions for Dell EMC Enterprise platform and Dell EMC platform for SMB and Remote Office/Branch Office space.

Dell EMC systems simplify and minimize IT deployments risks. To support them, you need compatible physical infrastructure solutions that are integrated, pre-engineered, and pre-validated. You need to lower your time-to-market and deployment time; you also need to minimize on-site and remote management as well as change management costs.

Enterprise Solution

for data center environments

Complete Products

APC™ by Schneider Electric provides a complete data center physical infrastructure and management software in a single self-contained and secure enclosure for converged and hyperconverged architectures, allowing organizations to simply and efficiently deliver a complete and highly energy-efficient IT solution that is pre-tested, optimized, and able to be rapidly deployed.
Remote Office/Branch Office and SMB Solutions
for smaller, distributed IT environments outside of the data center
