

From engineering to production, this collection has all the professional-grade tools needed to help your entire team carry out their best work.

# Your best work. Our best Inventor.

#### Everything you need

Run your entire product development process with an end-to-end solution that includes 2D & 3D design, advanced simulation, 2.5 - 5-axis CAM, factory layout, and more.

## The power of workflows

Center all your work around your Inventor data with integrated CAD, CAE, and CAM. Connect seamlessly with specialized applications to create a complete product definition.

#### Now, and into the future

Access the latest capabilities as soon as they're available; whether it's continual enhancements to the products you use today or incorporating new, cloud-based technologies like Fusion 360 into your workflow.

The Product Design and Manufacturing Collection includes key products such as **Inventor Professional, AutoCAD, Nastran In-CAD and HSM** in addition to other software included. Go to <a href="www.autodesk.com/productdesign">www.autodesk.com/productdesign</a> to see the full list of products included in the Product Design & Manufacturing Collection.

### **Executive**

# **Driving better outcomes**

# Get more for your money

Take advantage of significant cost savings when purchasing multiple Autodesk software solutions as part of a collection.

### Support your business today and into the future

Stay ahead of changing business needs with access to a wide selection of the most essential Autodesk software used in your industry — while enjoying a steady stream of new releases and product enhancements for improved workflows.

### Manage operational costs more effectively

Reduce operational costs (IT and procurement spend) by standardizing on a collection of technology flexible enough to suit the needs of a majority of your users.

### IT Manager

### Smarter software management

# Simplify software management

Streamline deployment and software management with a standardized collection of Autodesk products and services.

### Streamline the procurement process

Eliminate additional paperwork and unnecessary procurement cycles by selecting a collection that includes all the technology your users will need – now and in the future.

#### Optimize IT spend

Take advantage of significant cost savings when purchasing multiple Autodesk software solutions as part of a collection – giving your users access to more technology while reducing IT costs.
