

Cohesity + Pure Storage: All-Flash Backup and Recovery at Scale

Data continues to grow, both in value and volume. Yet many backup environments are unable to keep pace with changing business continuity requirements, cloud services demands, and more modern use cases. At the same time, increasingly sophisticated ransomware and other attacks continue to rise.

Innovative data protection, one integrated solution

Pure FlashRecover™, powered by Cohesity®, delivers innovative, integrated all-flash data protection for rapid recovery at scale. Jointly engineered by Cohesity and Pure Storage, it's simple, fast, and reliable all-flash backup and recovery built to meet the most demanding business continuity requirements—and enable new data-driven opportunities.

Cutting-edge technology.

Modern data protection with the best in backup and all-flash technology.

Streamlined support.

Single-point support with direct access to world-class Pure Storage technical assistance.

Simple ordering.

Procure one complete solution via a single Pure Storage purchase order.

Rapid recovery.

Integrated Cohesity DataProtect software and Pure unified fast file and object FlashBlade storage deliver rapid restore at scale for growing petabyte-level recovery.

Ransomware protection.

Predictable recovery at scale, anywhere, with immutable backups with simple search and instant recovery to get back in business, fast.

Data reuse.

High-performance Pure FlashBlade leverages stored data for DevOps and analytics to get the most value for your applications.

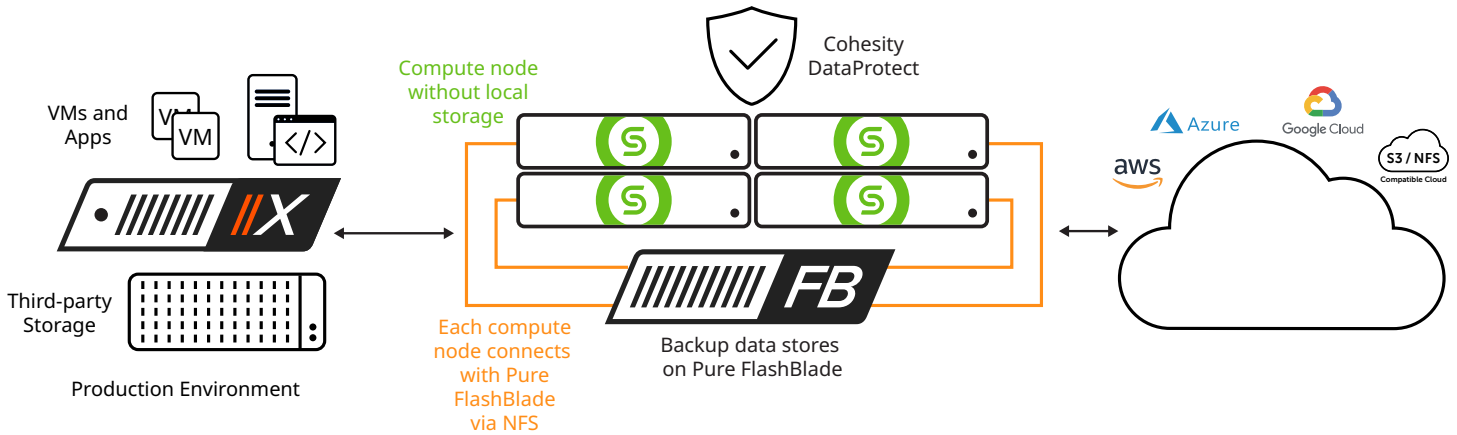

Experience the diskless data center

Experience the modern, multicloud-ready data center with Cohesity and Pure Storage.

- Seriously high performance.**
 Achieve 3x faster backup and restore throughput and recover thousands of virtual machines (VMs) a day—up to 1 PB a day to meet large scale recovery needs.
- Simple to operate and manage.**
 Eliminate data protection silos with a simpler backup solution. Enjoy non-disruptive upgrades and native cloud integration.
- Scalable to multicloud and edge.**
 Efficiently use your resources with disaggregated compute and storage. Scale linearly to petabytes and reuse backup data on demand.

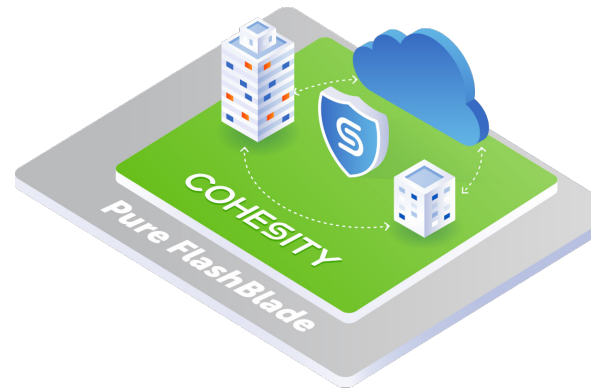

Pure FlashRecover, powered by Cohesity

Seamless data mobility in a flexible consumption model

- Disaggregated compute and storage for independent scaling of backup and recovery processes
- Simplified management, auto-discovery and configuration of FlashBlade
- Non-disruptive upgrades
- Native cloud integration for flash-to-flash-to-cloud backup, recovery, and archive
- Scalable and efficient reuse of backup data on FlashBlade for modern apps

"The seamless integration of Cohesity and Pure at Piedmont HealthCenter has allowed faster RPOs and RTOs...this process is completely automated and the built-in policies from Cohesity allow us to focus on our end-users instead of spending time troubleshooting in our data center."

Byron Williams,
IT Infrastructure Manager, Piedmont HealthCare

"...We are excited to see industry leaders in storage and backup and recovery coming together to deliver rapid data availability, restore, and reuse at scale with a truly integrated experience. The speed and storage we get from Pure coupled with the exceptional end-to-end data protection we receive from Cohesity makes for a perfect union."

Carl Wolcott,
IT Manager, Kai USA Ltd.
