It's finally here…
SaaS-based, feature rich, enterprise-grade backup & recovery— for everyone.

New from the minds of Commvault comes Metallic™, a streamlined and simple Azure-hosted SaaS backup & recovery solution that you can get up and running quickly. Metallic combines Commvault's proven technology with the freedom of SaaS delivery. It offers pricing flexibility and multi-petabyte scalability on a cloud-native, flexible "SaaS-plus" architecture. This enables you to decide how you deploy: Azure infrastructure and Azure Storage or a mix of your on-premises or cloud storage — you decide how best to meet your data protection needs. And Metallic also makes data migration easy and fast — whatever the workload.

The initial Metallic™ offerings cover your most critical needs:

Metallic™ Core Backup & Recovery

Making sure your most critical workloads are covered: Virtual machines (VMs), file servers and Microsoft SQL.

Metallic™ Office 365 Backup & Recovery

Covering your extensive use of Microsoft Office including Exchange, SharePoint and OneDrive.

Metallic™ Endpoint Backup & Recovery

Metallic™ covers all your desktops and laptops—and more—wherever your data lives and goes.

About Commvault

Commvault is a leader in data management. Microsoft leverages Commvault for Azure, Office, Xbox and other technologies. Microsoft and Commvault have forged a relationship that spans nearly two decades delivering industry leading data management solutions. Commvault recognition includes:

2017 Microsoft Impact Award Winner: ISV Cloud Innovation

2018 Gartner Peer Insights Customer Choice: Best Enterprise Backup & Recovery Software As Reviewed By Customers

2019 Top Ranked: The Forrester Wave Q3 2019 Data Resiliency Solutions

Commvault in Action

"Before Commvault, to restore a SharePoint document the entire SharePoint database needed to be restored thus overwriting any recently changed documents. After Commvault, we can now restore to the document level which generally takes less than a minute."

Richard Rudzinski, I/T Director, Technical Services
The Borgata Casino, Hotel and Spa

Enterprise-grade backup and recovery with the simplicity of SaaS: The power to grow confidently, and cost-effectively.

Scalable

As your business and IT needs grow, the Metallic offering handles more data and users

Secure

Preconfigured with comprehensive security, encryption, and granular recovery

Simple

Easy to buy. Easy to set up. Easy to migrate. Easy to manage.

Fast

Fast to get started. Fast to migrate. Fast to search. Fast to recover.

Flexible

Unique SaaS-plus approach gives you complete control of storage choices

Low Cost

Pay for what you use, not what you don't + simple pricing

It's this easy to get started with Metallic:

1. Go to www.metallic.io and start your 45-day trial

2. Experience the power and simplicity of "SaaS-plus" backup & recovery

3. Choose from straightforward pricing options with a partner (no lock-in, pay only for what you use!)
