# Why choose a Dell Latitude 2-in-1

Work the way you want, where you want.

## Elegant and flexible

Let Dell help you make work great by giving you the freedom to work when and where you want with a class of devices that set the standard in beauty, design and lasting performance. Multiple working modes and stunning displays that interact with touch or pen all wrapped in a chassis that is cool and sleek. Dell 2-in-1's work for you.

## Industry-leading technology

Experience a world of firsts in innovation. From the smallest 2-in-1 built with premium materials and components to an industry-first auto-deploy kickstand. Enjoy easy and secure access with state-of-the-art facial recognition using Windows Hello and IR camera. But wait there's more. We also now feature USB Type-C connectivity for one cable docking that easily supports power, video, data and voice, all to maximize your workspace.

## World-class security and manageability

Update once and it's everywhere you need it. Malicious cyber attacks continue to grow along with the headache and overhead of installing constant updates. Not anymore. Put your confidence in Dell's Client Command Suite of products that provide free automation tools to update and protect your devices in one place at one time even if the device is turned off. Time is precious. Why not leverage Dell solutions and promote your workforce and company to be more future-ready.

# Meet the Dell 2-in-1 Family

Work the way you want, where you want.

## XPS 13 2-in-1

The XPS 13 2-in-1 leverages the sleek design of the XPS 13 and kicks it up a notch with a new architecture and 360-degree hinge making it the smallest 13-inch 2-in-1. Its beautiful QHD+ InfinityEdge display is also a first. It supports multiple work modes including tablet, tent and laptop. Powered by Intel's new fanless architecture and engineered with Dynamic Power Mode, the XPS 13 2-in-1 provides bursts of performance when you need it most. All this, and the battery can still last up to 15 hours<sup>1</sup>. XPS 13 2-in-1, the ultimate in executive mobility.

## Latitude 7285 2-in-1

Introducing the ability to work without wires. This detachable device is as elegant as it is productive. Need a charge? Simply place the device on a charging mat<sup>2</sup>, no power cord required. Return and continue your work day interacting with stunning displays and a smooth backlit keyboard. Need to present? Experience the seamless tablet and keyboard separation and begin to understand the real value of where simplicity and productivity meet in a device that has the power of a laptop and the flexibility of a tablet.

## Latitude 5289 2-in-1

Need ultimate security in a 2-in-1 convertible? Then look no further. This device has identical enterprise-level security and manageability features of its traditional laptop counterpart while offering the flexibility to work how you want. Work in laptop, tent or tablet modes. Whether your day demands creating content, consuming data or presenting rest assured this device will augment your work style. Experience at-the-desk productivity while minimizing clutter with Type-C connectivity. It will open up the possibilities throughout your day with one cable docking that supports data, voice, power and audio devices. Now that's productivity your way.

## Latitude 5285 2-in-1

Need ultimate security in a 2-in-1 detachable that can be serviced in the field, then this is the device for you. It has all of the security and manageability features of its traditional laptop counterpart while offering the flexibility to operate as either a laptop or tablet. From long battery life to Dell's exclusive auto-deploy kickstand, this device is as productive as it is flexible. Ease in field serviceability stands alone with this device because swapping a battery, wireless card or hard drive is a breeze. And it supports Type-C connectivity, a revolutionary new plug that when connected to the Dell Dock powers all of your peripherals using a single wire. Secure, serviceable and easy connectivity all in one device.
