

Together, Lenovo and Google for Education empower learning anytime, anywhere.

As learning evolves, Lenovo and Google for Education solutions are empowering educators and equipping students for what's next. Each solution is designed to be easy to use, flexible, scalable, and secure—supporting connection and collaboration.

Connection is critical.
81.3% of faculty are worried about ensuring students stay motivated and engaged before, during, and after class.¹

With the right edtech tools, teachers can inspire curiosity, sparking the creative thinking and outside-the-box learning needed for tomorrow's career landscape. Whether learning takes place in the classroom, at home, or within a hybrid model, Lenovo and Google for Education nurture individual needs and enable students to learn better.

Smarter
technology
for all

Lenovo

Lenovo and Google for Education

Inspiring solutions for collaboration and creativity.

THE MODERN CLASSROOM

- Chrome Education Upgrade unlocks the full capabilities of Chrome OS to free up IT resources and give educators the time to focus on learning outcomes.
- Power and flexibility mean devices support new digital learning models and adapt to how students learn—all with easy IT manageability.
- Affordability enables schools on any budget to provide more students with devices and digital learning tools, helping to address hybrid learning equity issues.

LEARNING EVERYWHERE

- Reliable Intel® Wi-Fi 6 and 4G/LTE connectivity ensures an accessible digital curriculum.
- Providing assistance with vision support, reading and understanding text, hearing, and mobility needs, Google for Education solutions allow for individualized, accessible learning.
- Teachers can create engaging learning environments with Creativity apps for Chromebook like Squid, Book Creator, and Explain Everything.
- With reinforced ports and hinges, these impact-tested and spill-resistant devices are engineered for learning from anywhere..

COMPREHENSIVE SECURITY & PRIVACY

- Chrome OS, a proven, secure operating system, along with integrated Lenovo security features like the webcam privacy shutter, keep students and teachers protected.
- With advanced security at its core, Chromebooks are built to keep schools and students protected from evolving threats, both internally and online.
- Lenovo's world-class services portfolio delivers end-to-end solutions, including services that protect student and teacher data and devices.

Everything needed
for adaptive learning,
all in one box.

Google Meet Series One Room Kits from Lenovo Education include all the tools educators need to create a successful hybrid classroom environment. With flexible configurations to suit spaces of every size, these kits are easy to procure, install, and maintain, enabling collaborative learning from anywhere.

At Lenovo, we are laser focused in our pursuit to support educators around the globe as they challenge themselves every day to reimagine and reinvent teaching in the modern classroom. Driven by innovation, our robust portfolio provides the devices, services, and software your education community needs to increase student engagement, ignite student potential, and connect to learners everywhere now and in the future.

- LanSchool teaching software helps guide learning, increase collaboration and maximize teaching time, putting technology to work for both students and educators.
- Rely on end-to-end services and expert support so you can focus on educating, not IT management.
- Bring learning to life with VR Classroom 2, sparking wonder with immersive experiences that move beyond the classroom.

Lenovo

Smarter fosters the future of learning.

Best for K-12 students

Lenovo delivers robust Chrome devices built for the challenges of K-12 education at all levels—at any budget. With the right technology for every learning style, plus Google for Education solutions, students and teachers can unlock their potential and have the confidence to reach it.

Lenovo

10e CHROME TABLET

A just-right device for students on-the-grow
