

Plantronics **Get Ahead** Program

Get Ahead in Collaboration with Plantronics

Get complimentary products. Get expert advice. Get more for your money.

One size doesn't fit all. Successfully incorporating audio devices into your Unified Communications deployment involves matching the right audio device to the right employee work style.

The Plantronics Get Ahead program gives you a no-risk opportunity to find the right products for your team...on us. You can choose up to five complimentary products to try in your own environment. And when you find the products that are right for your workforce, the deal gets even better — order 100 of the offered products and we'll add in 10 extra products.

For each 10 additional products you buy, we'll add in another one. And with our collaboration products comes a wealth of experience in planning and deployment with our exclusive online **UC toolkit**.

Participation in the Get Ahead program is limited to companies who plan to deploy 100 or more seats. With the ideal audio devices for every work style, and quality that meets the rigorous standards of 100% of the Fortune 100, Plantronics is the smart call to ensure a successful deployment with both users and your CFO.

Plantronics **Get Ahead** Program

Get Ahead in **three** simple steps:

1. Get started with your product evaluation

Order up to five complimentary Plantronics audio devices from our four product families shown on page 1. Complete the online registration form at plantronics.com/us/ahead/

2. Get expert advice

Get Ahead with expert advice on device selection and deployment best practices. Stay ahead with our exclusive online UC Toolkit (plantronics.com/us/solutions/unified-communications/toolkit): learn from real customer experiences and use the step-by-step deployment guide to evaluate your own needs.

3. Get more for your money

Successfully complete your evaluation and start saving. Purchase a minimum of 100 audio devices and receive 10 extra. For each additional 10 devices purchased, receive one more.

For details and requirements see the terms and conditions provided at plantronics.com/getahead
