

# Stay motivated, maintain a healthy lifestyle and achieve all your fitness goals.

## Gear Fit2 Pro Activity Tracker

When the workforce is healthier, the company is healthier. And Samsung offers the ideal tool to help workers achieve their individual fitness goals. The Samsung Gear Fit2 Pro is a beautifully stylish marvel of technical engineering that can continually monitor heart rate, monitor location and even automatically recognize and track different types of exercise. It's ready for open-water swims, long-distance runs along dusty trails, and grueling bike rides in weather that makes most people curl up by the fire. And it does it all while staying connected to the workday. It's the Gear Fit2 Pro from Samsung. And it's ready to move.

### Key Features

#### Swim-Ready Water Resistance

Rated at 5 ATM, the Samsung Gear Fit2 Pro is ready to do laps in the pool, go for an ocean swim or do some stand-up paddling. It can keep track of time and distance, heart rate, lap count and even stroke type.

#### Military-Spec Durability

The Gear Fit2 Pro meets MIL-STD-810G standards, for extreme durability. It's passed military specification (MIL-STD-810G) testing against a subset of 21 specific environmental conditions.<sup>1</sup> From drops to vibrations, from extreme temperatures and altitudes to shocks, from humidity to salt fog, rain, dust and sand, the Gear Fit2 Pro never quits.

#### Heart and Location Tracking, Activity Auto-Tracking

Advanced tracking sensors enable precise and continuous heart rate monitoring and GPS tracking, for those morning trail runs. The Gear Fit2 Pro can also learn, recognize and track activity automatically, like running, cycling, lifting, racquet sports and more.

#### Fitness Alone or with a Trainer

Whether working out alone or with a personal trainer, the Gear Fit2 Pro is an ideal fitness tool. Along with the heart rate monitor, the Gear Fit2 Pro links to Under Armour apps, including UA Record, MapMyRun, MyFitnessPal and Endomondo. The Gear Fit2 Pro also plays Spotify playlists (offline mode), for personalized motivation.

#### Stays Connected

Out of the office doesn't mean out of touch. The Gear Fit2 Pro syncs with all phone apps, including Quick Reply. It can receive calendar and call alerts, and also keep track of fitness challenges.

#### Integrates into Health Programs

The Gear Fit2 Pro integrates seamlessly and effectively into health insurance and corporate wellness programs. It can also be a valuable part of a healthcare patient discharge solution.
