

Better business at a glance

Gear S3 smartwatches

Be current. Be nimble. Be better at business. More than merely fashionable accessories, the Samsung Gear S3 smartwatches are valuable business tools that free you from your phone. Gear S3 smartwatches mean you'll always have your texts, schedule, updates and your most productive apps at your fingertips. You can pay right from your wrist, and track your location. You can even withstand the harshest weather while doing it. And all this freedom and versatility lasts for days without needing a recharge. Make business freer and faster. With the Samsung Gear S3 smartwatches.

Key features

Never miss an opportunity

The Gear S3 is LTE/WiFi Bluetooth-connected,¹ so you can receive texts, emails and alerts subtly, without reaching for your phone. With a built-in speaker and microphone, you can also make and answer calls hands-free.

Secured by Knox 2.0 for Tizen OS

Knox is Samsung's defense-grade mobile security platform, now compatible with the Tizen OS to deliver enhanced security for wearable technology. Protect sensitive business data accessed from your Samsung Gear smartwatch.

Customize apps and settings to your needs

The Knox Tizen Wearable SDK 2.0 allows for customized deployments of wearable technology for workplace use. Kiosk mode lets you lock the Gear S3 frontier to a single app for specific use cases. Hardware key re-mapping lets you change functionality for business requirements. And you can control turning settings on/off via the settings manager.

Enterprise bulk device management

The Gear S3 frontier is equipped for enterprise bulk app installation and activation, so your organization can easily scale mobile deployments for entire fleets. And you can easily get to work thanks to standalone device activation and instant transfer of data without smartphone pairing.

Built for work-life balance and corporate wellness

With the built-in S Health app, track your steps, monitor your heart rate and more.² Set goals, post results and check leaderboards to see how you stack up. And using the Knox Tizen Wearable SDK 2.0, you can customize and integrate the Gear S3 frontier with your corporate wellness program.

Android compatible

The Gear S3 is compatible with most Android™ phones,³ giving you access to the Samsung experience.

Always find your way

Use the built-in GPS and your custom app to assign the right task to your employees based on their location.

Gear S3 Classic

Gear S3 Frontier

¹Optional Samsung Gear S3 Frontier LTE model available. Samsung Gear S3 (Bluetooth) is a companion device for compatible Android smartphones, sold separately. Full connectivity functionality requires Bluetooth or WiFi pairing to a wireless network-connected phone. ²This device and related software are not intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease. ³Compatible with select devices using Android 4.4 and later with at least 1.5GB RAM. Supported devices may vary by carrier and device. Some features may not be available. For best results, connect with compatible Samsung Galaxy devices. For a list of compatible smartphones, please visit samsung.com/gearS3. ⁴Average expected performance based on typical use. Results may vary. ⁵This device passed military specification (MIL-STD-810G) testing against a subset of 10 specific conditions, including drops from 4.9 feet, extreme temperatures, dust, shock/vibration, and low pressure/high altitude. Water- and dust-resistance based on IP68 rating (water-resistant in up to 5 feet of water for up to 30 minutes). Rinse residue/dry after wet. See user manual for more details. ⁶Band sold separately.
