# Flip 2: The New Standard in Workplace Collaboration

# A Versatile Digital Flipchart

Samsung's Flip 2 is a fully digital flipchart — a highly versatile interactive display with power and flexibility.

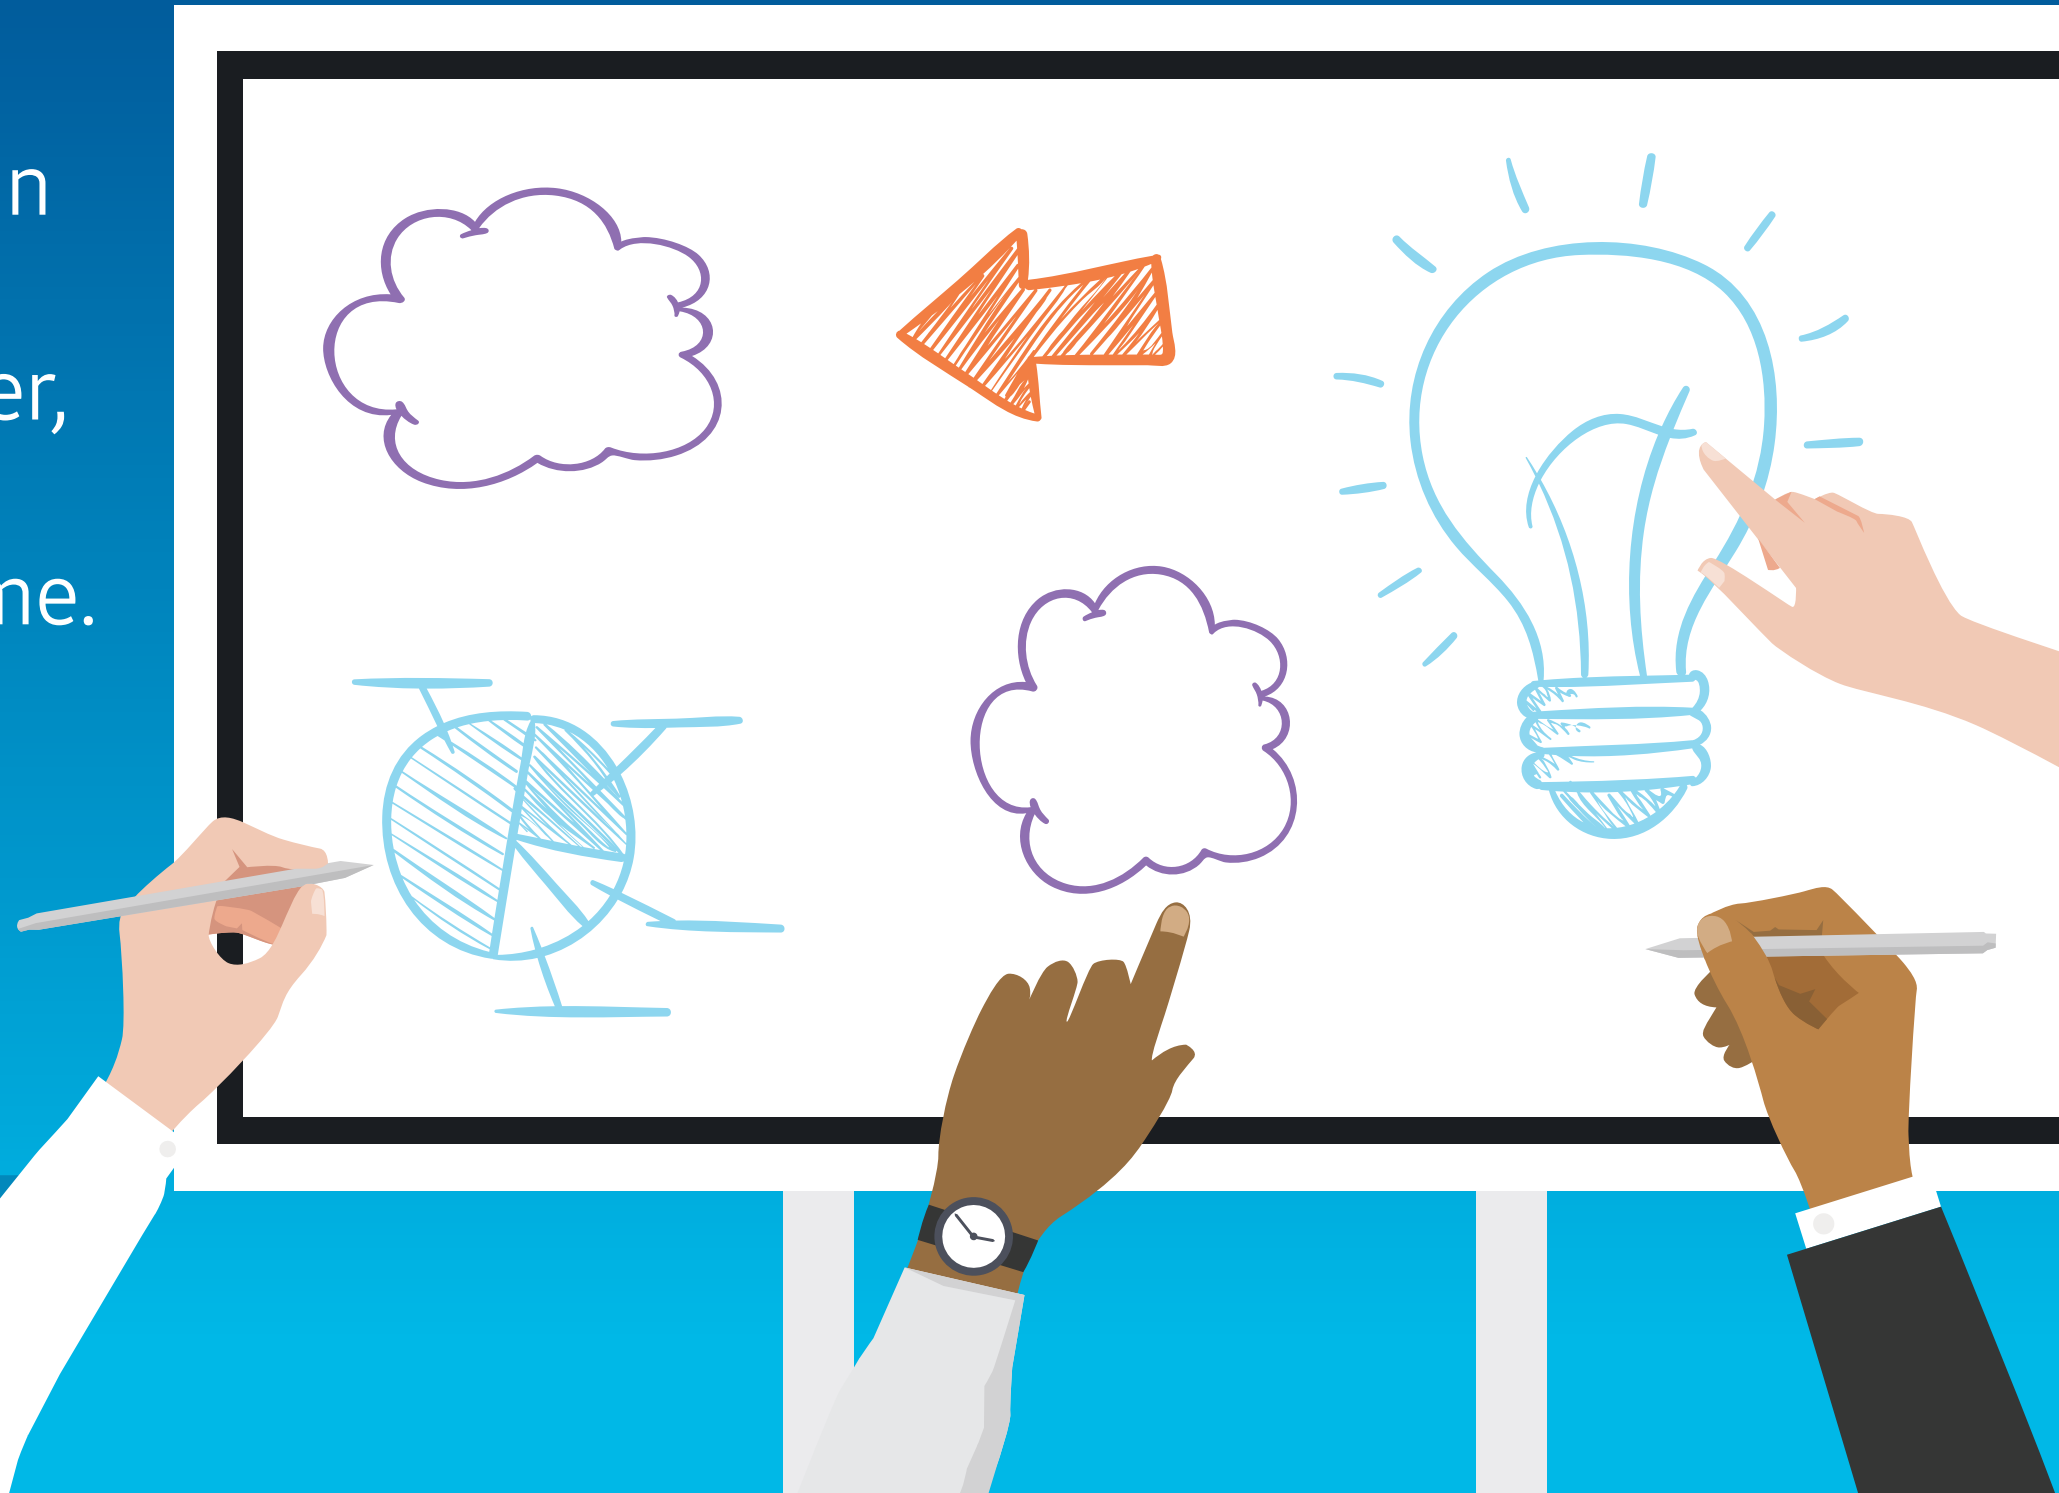

# What Does Flip 2 Do for You?

Flip 2 offers 55-in. and 65-in. options with a host of collaboration capabilities. Here are seven ways to capitalize.

# 1 Brainstorming

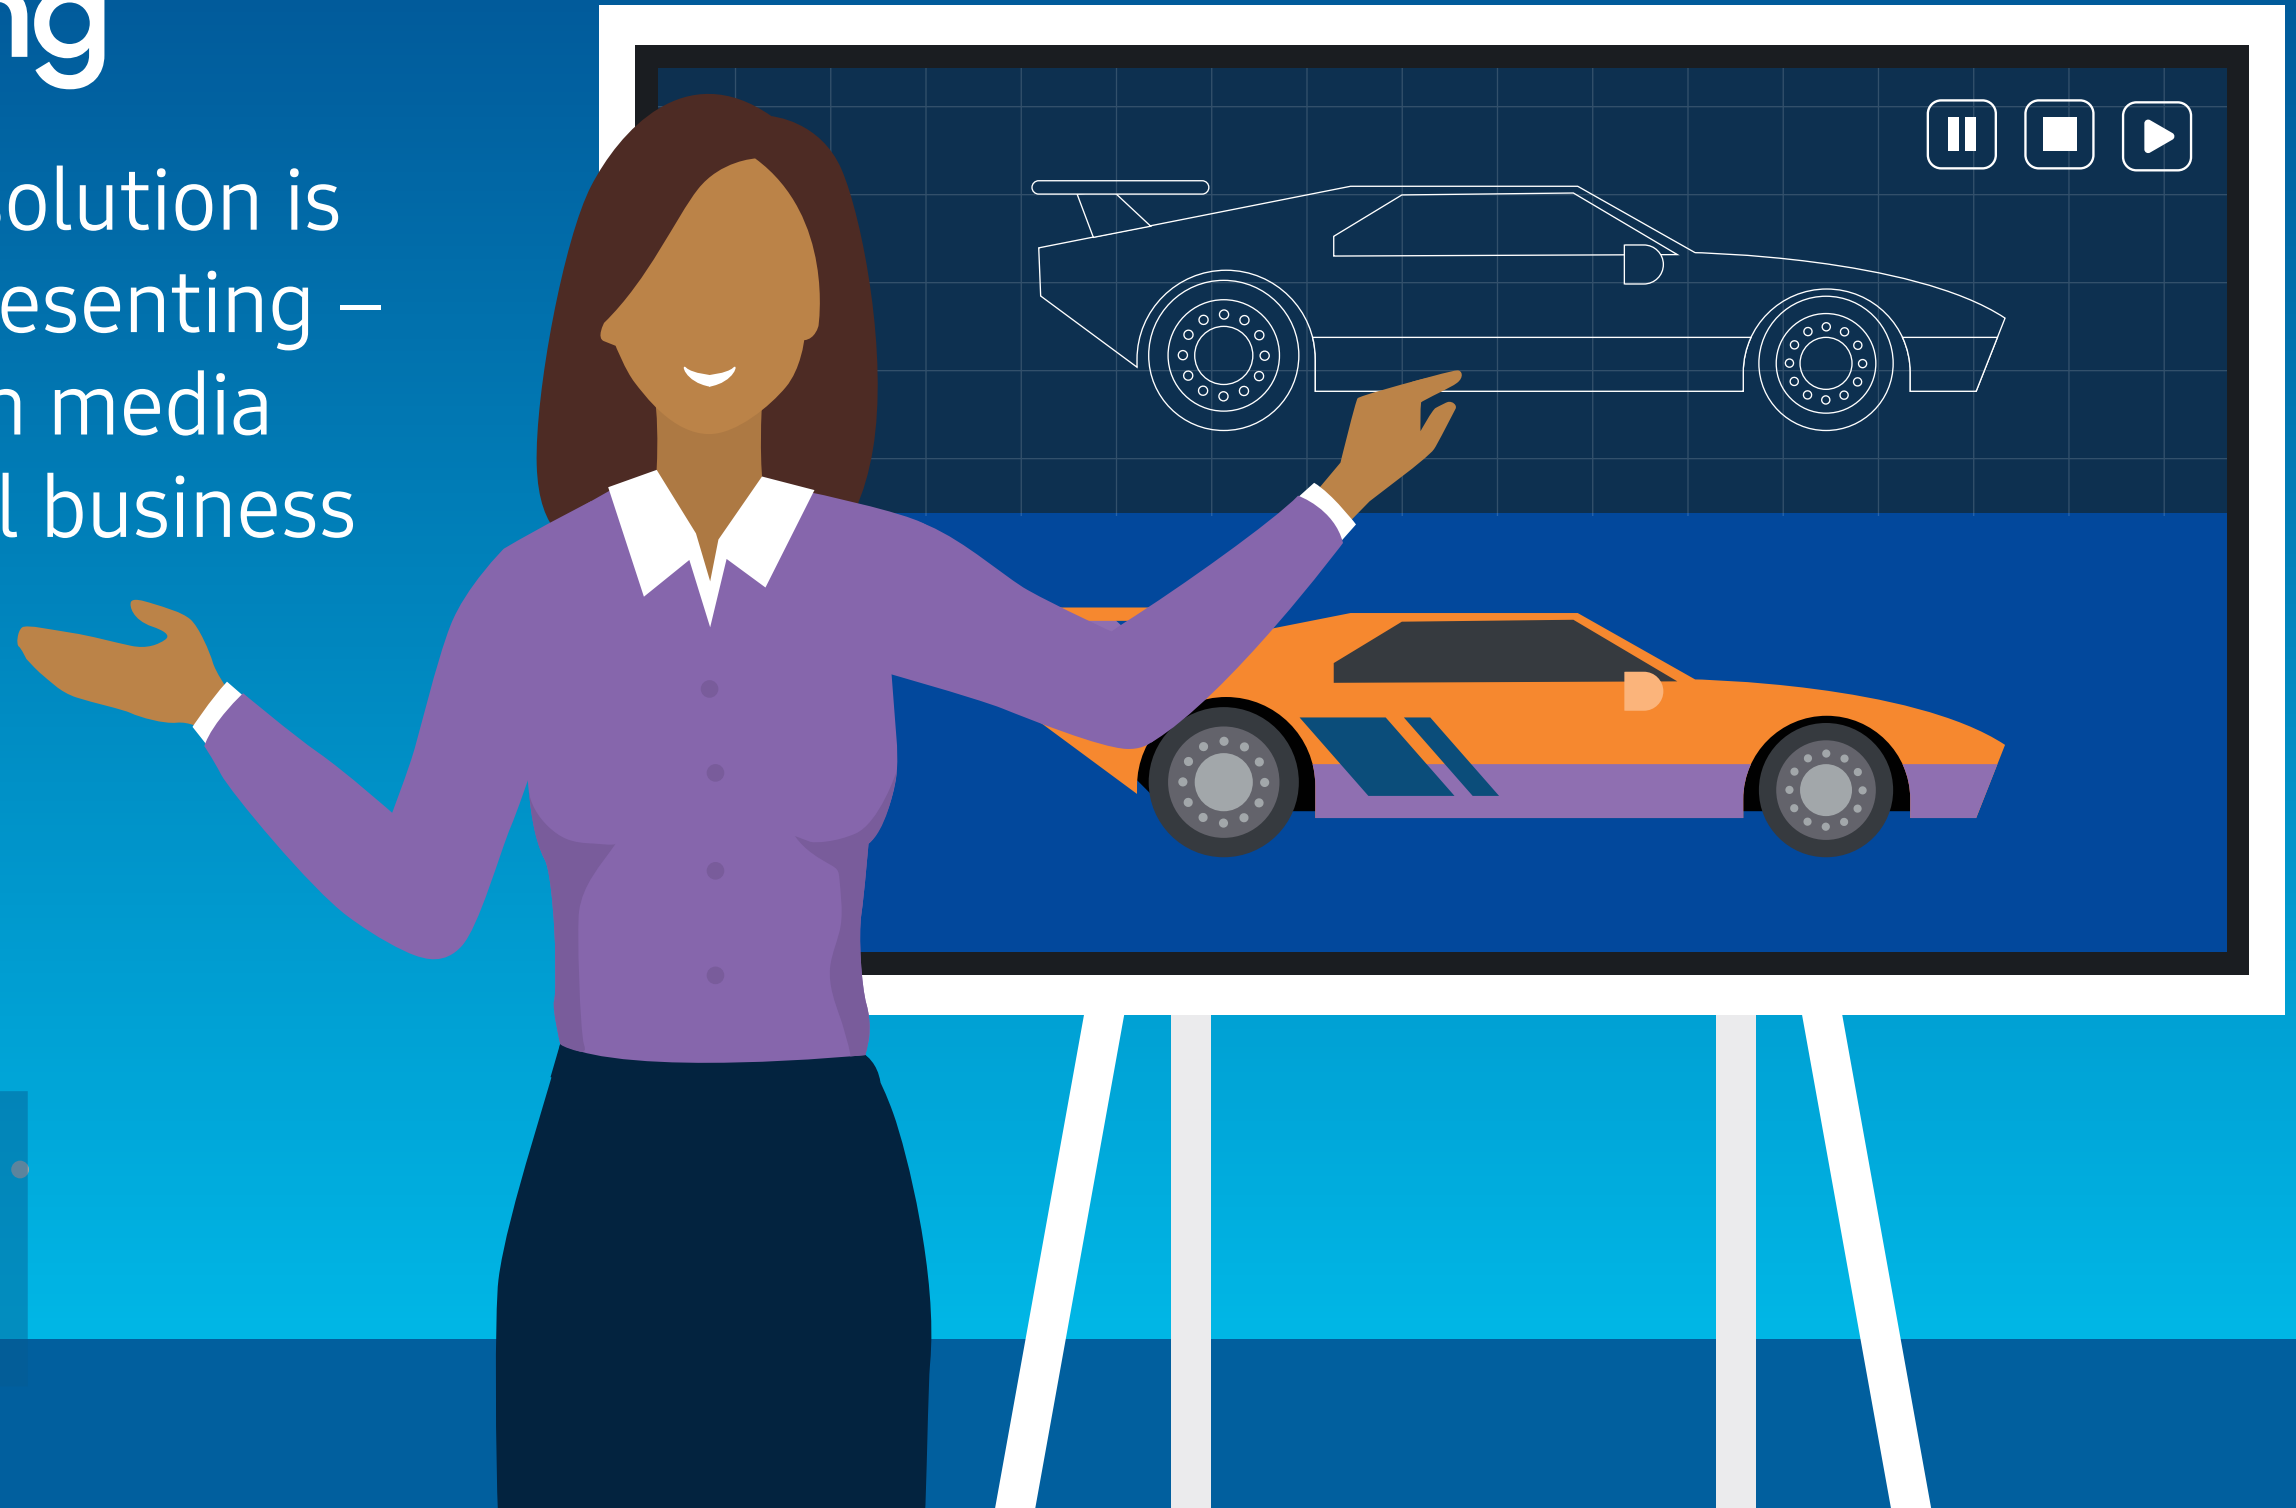

Up to 4 teammates can digitize ideas with seamless pen-to-paper, erasing, and scrolling experiences in real time.

# 2

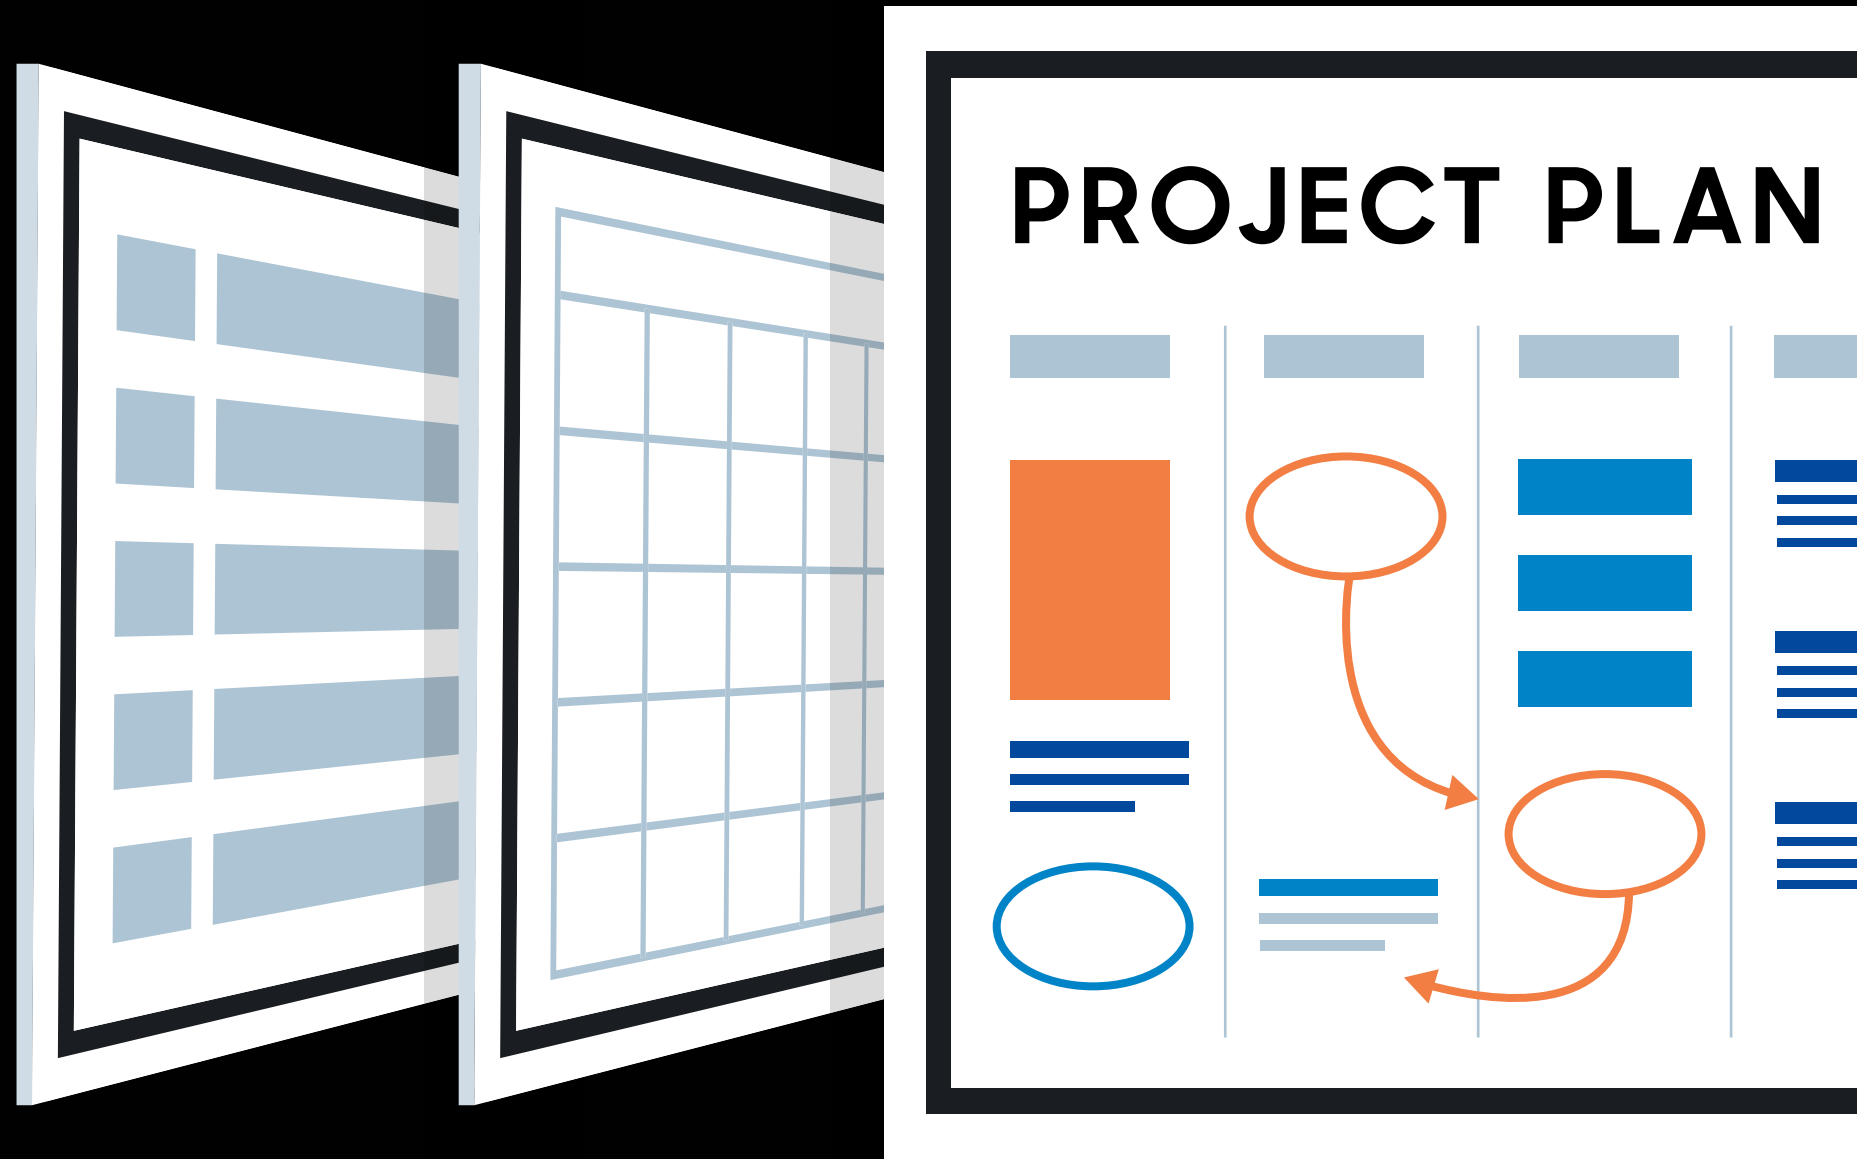

## Presenting

Flip 2's 4K resolution is perfect for presenting – web apps, rich media visuals and all business documents.

**Businesses are  
the perfect place  
for collaborative  
technologies.**

**Learn more here.**

# 3

## Connecting

Collaborators can physically or wirelessly connect devices like phones, tablets and laptops to Flip 2 via Bluetooth.

# 4

## Illustrating

Engage the team's creative side with Flip 2's art modes, like watercolor or oil painting with various colors and styles.

5

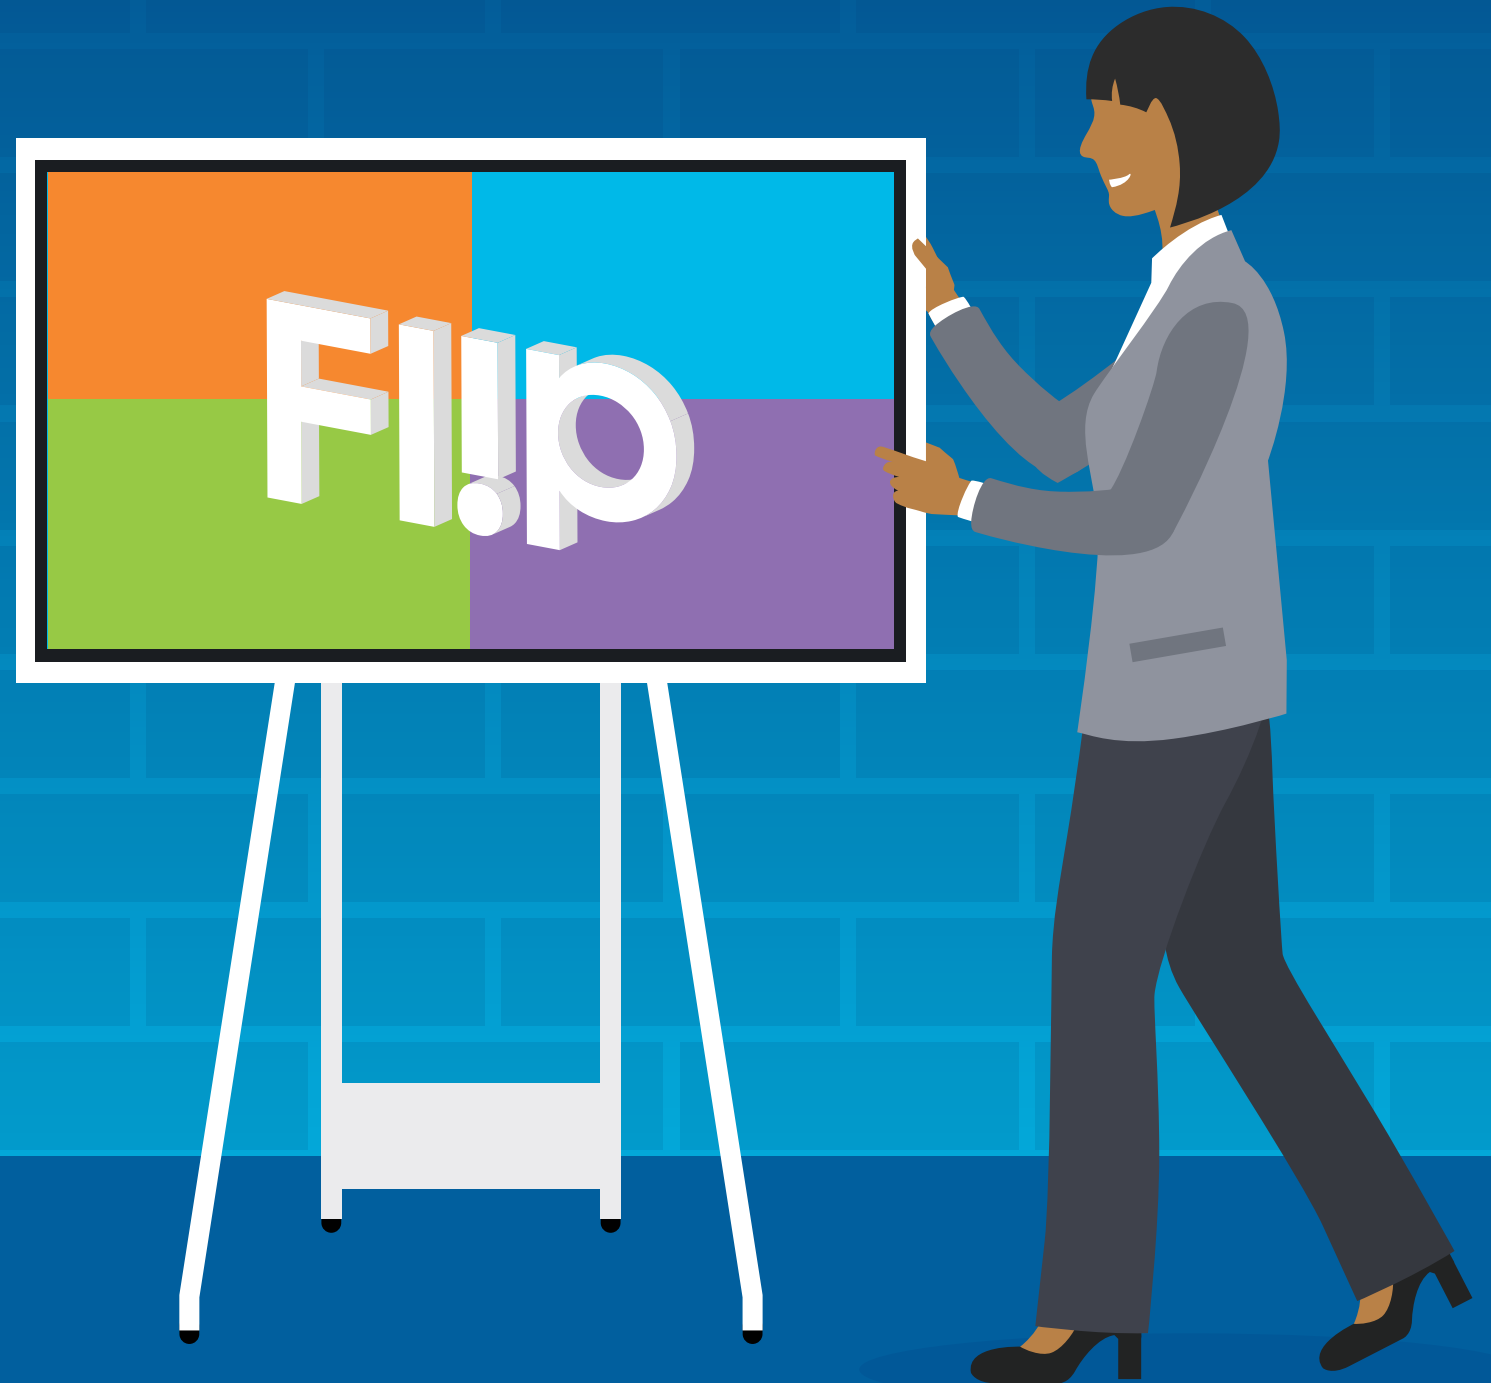

## Editing and Appending

Whether it's an image, layout or architectural schematic, Flip 2 allows users to annotate and edit on screen.

## 6 Going Mobile

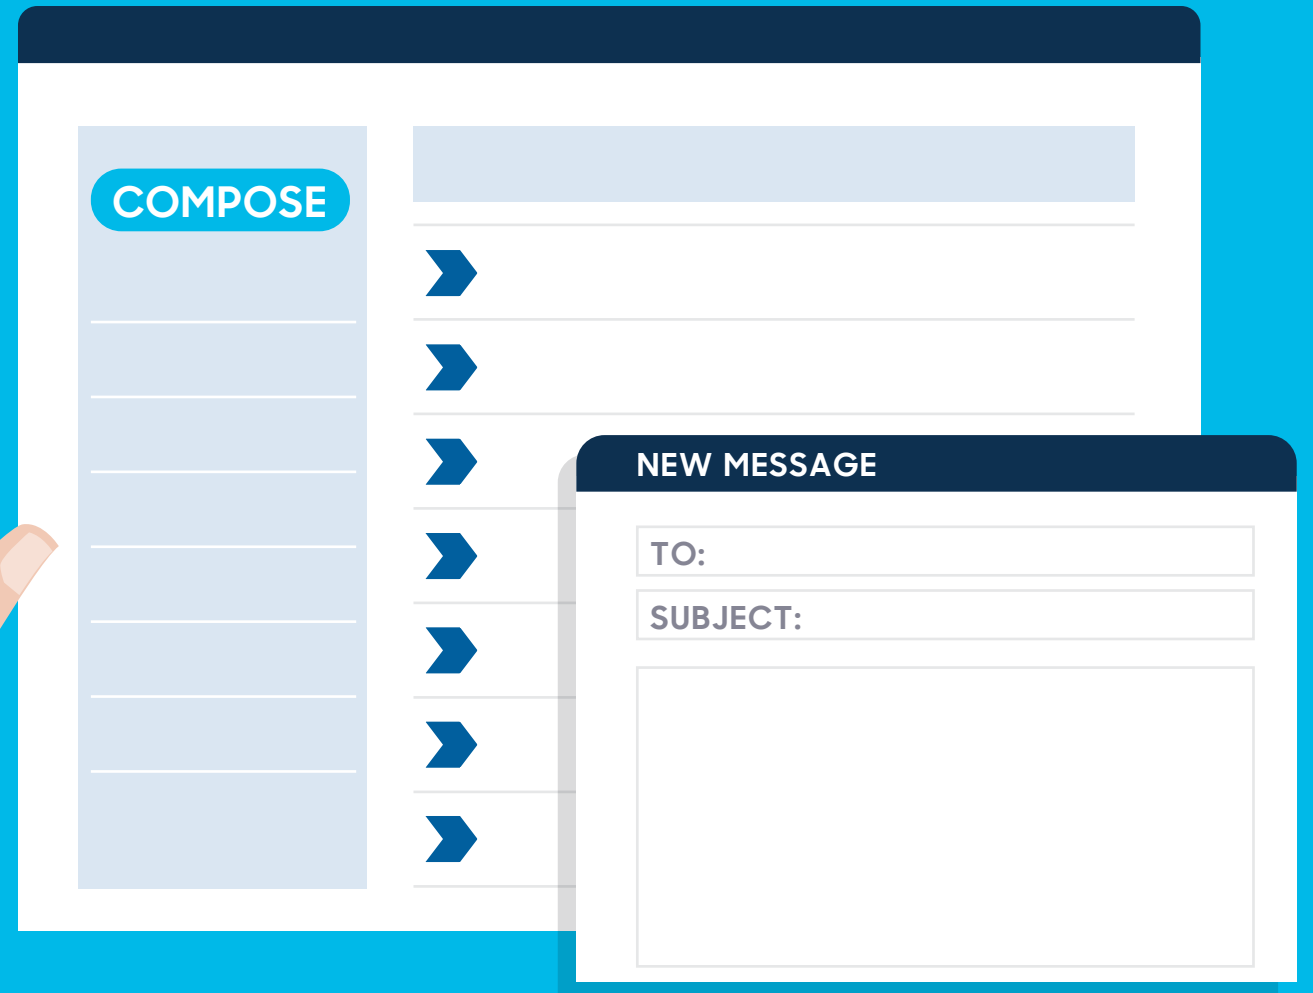

The Flip 2's wheel-based stand lets users easily start a meeting in any location, at any time.

7

# Saving and Securely Distributing

Users can securely store data, thanks to automatic firmware updates and secure wireless connectivity.

# Flip Into Action

Flip 2 makes meetings easy and versatile, turning discussions into collaboration and making the most of teamwork.
