

## Galaxy \$10e | \$10 | \$10+

# Powered for the way you work.

### Unlock security and productivity to accelerate your business beyond the limit.

The Samsung Galaxy S10e | S10 | S10+ gives your team next-generation productivity, performance and security, to push the boundaries of your business success. And you can go even further with the Unlocked by Samsung edition. Designed to give you the flexibility you need to make the best decisions for your business, the Unlocked by Samsung Galaxy S10e | S10 | S10+ allows you to choose the carrier<sup>1</sup> that works best

#### Unlock freedom.

Carrier or no carrier. It's your choice. With Unlocked by Samsung smartphones, you have the freedom to choose what works best for your employees. You can standardize on one device across multiple carriers, greatly simplifying IT. And no-contract Unlocked by Samsung smartphones can be customized for a company's Wi-Fi only environment where no carrier is necessary.

#### Unlock the mobile device experience.

Unlocked by Samsung smartphones don't come pre-loaded with any carrier apps, so you have a more consistent UI, and you can customize device software exactly the way you need it. And Unlocked by Samsung smartphones are optimized for U.S. carrier networks,¹ with access to exclusive Samsung services like Knox™ and Samsung+ personal support.2

#### Unlock value.

When all employees standardize on the same device and have the same user interface, your company can have lower training, support and connectivity costs. You'll have the right contract with the carrier of your choice, or even have no carrier at all. Software updates are easily managed, IT can configure devices in bulk, and unlocked devices are CapEx assets.

#### DeX Work better everywhere.

Connect Galaxy S10e | S10 | S10+ to any monitor with the DeX adapter, and DeX gives your phone the power to perform like a desktop PC.<sup>3</sup> A lens for every shot helps you take true-to-life pictures even in low-light environments. The 5.8"/6.1"/6.4" Dynamic Amoled Infinity displays4 have virtually no bezel at the top or bottom, and no home button or notch. And our new One UI works with the way you use your phone with screens that are uncluttered, icons that pop and easier one-handed use.

#### Do more with a smarter phone.

With Wireless PowerShare, simply place your earbuds, smartwatch or smartphone (even one that isn't Samsung) on the back of your Galaxy S10e | S10 | S10+, and transfer your battery's charge. 5 The Galaxy S10e | S10 | S10+ uses machine learning to understand your daily usage patterns, loading what you need and turning off settings you don't, to drive performance throughout the day. And Bixby learns from the way you work, intelligently providing a list of recommended settings and applications, helping you maximize your workday.

#### Keep it simple, keep it safe.

Simply place your finger to unlock your Galaxy S10 | S10+ with the first touch, thanks to an in-display sensor that reads every ridge and notch of your finger, to ensure your sensitive data won't fall into the wrong hands. You're protected by Samsung Knox, our built-in defense-grade security platform that protects the device from the moment it's powered on. 6 With device configuration, enrollment and management to advanced mobile security controls and updates, Samsung has the mobility software and enterprise mobility services you need for every stage of the device lifecycle.
