

SAMSUNG

Supercharge your work.

Galaxy S20 | S20+ | S20 Ultra 5G

Unlock security and productivity to
supercharge your business like never before.

Do more than ever before with the next generation of Galaxy smartphone, the S20 Series. Filled with professional-level features designed for business, they'll enable you to harness the blazing speed of 5G to further your digital transformation. And with Unlocked by Samsung editions giving you the ability to choose the carrier¹ that works best for you, they're the most productive, most connected and most trusted business tools yet.

Unlock freedom.

Carrier or no carrier. It's your choice. With Unlocked by Samsung smartphones, you have the freedom to choose what works best for your employees.¹ You can standardize on one device across multiple carriers, greatly simplifying IT. And no-contract Unlocked by Samsung smartphones can be customized for a company's Wi-Fi only environment where no carrier is necessary.

Unlock the mobile device experience.

Unlocked by Samsung smartphones don't come pre-loaded with any carrier apps, so you have a more consistent UI, and you can customize device software exactly the way you need it. And Unlocked by Samsung smartphones are optimized for U.S. carrier networks,¹ with access to exclusive Samsung services like Knox and Samsung+ personal support.²

Unlock value.

When all employees standardize on the same device and have the same user interface, your company can have lower training, support and connectivity costs. You'll have the right contract with the carrier of your choice, or even have no carrier at all. Software updates are easily managed, IT can configure devices in bulk, and unlocked devices are CapEx assets.

DeX Be more productive.

The Galaxy S20 Series integrates seamlessly with Microsoft Office.³ Samsung DeX for PC delivers a desktop experience from your phone.⁴ The all-day intelligent battery⁵ optimizes your app usage to deliver power to outlast your business hours. The Dynamic AMOLED 2.0 120 Hz display delivers a smoother scroll and precise touch.⁶ And the pro-grade camera lets you capture images just as your eyes see them, even in low light without a flash.

Be more connected.

The S20 supports Sub-6, while the S20+ and S20 Ultra support both Sub-6 and mmWave.⁷ They enable fast transitioning across access points and seamless roaming, and are ready for Wi-Fi 6. You can access private network storage natively, without downloading third-party apps. And the Galaxy S20 Series can connect to and share files with up to five nearby co-workers without connecting to a network.⁸

Be more secure.

The Galaxy S20 Series is protected by Samsung Knox, our defense-grade security platform.⁹ It's the first smartphone to implement enhanced ciphers and signatures that allow the device to become a digital CAC. A secure processor is dedicated to protecting your PIN, password, pattern and blockchain private key. Ultrasonic Fingerprint ID offers the latest advance in biometric security.¹⁰ And Samsung has the mobility cloud services you need for every stage of the device lifecycle.¹¹
