

Definitely not business as usual. Welcome to the Galaxy Tab S family.

Freedom to work the way you want.

From customer interactions to mobile workflows that achieve PC-like productivity, the Galaxy Tab S family empowers you to engage with those inside and outside your organization in more ways and places than ever. Connect, type, sign, create and present. With easy deployment and management, plus security from the chip up, the Galaxy Tab S family offers an enterprise-class solution, no matter the business challenge.

Galaxy Tab S6 with S Pen

Galaxy Tab S5e

Galaxy Tab S6 Lite

Key Features

Greater engagement

Crisp. Clear. Captivating. A 10.5" state-of-the-art Super AMOLED display (10.4" TFT on Galaxy Tab S6 Lite) enables on-the-spot presentations.

Samsung DeX means more doing. Connect the Galaxy Tab S tablets to a workstation via Samsung DeX, and use Dual Mode to turn the Galaxy Tab S into a second screen.¹ Present on the Galaxy Tab while you push details to a larger screen. And take notes with the Galaxy Tab S6 S Pen.

Cinematic surround sound. Dolby Atmos® and quad speakers tuned by AKG ensure videos, presentations and more all sound extraordinary (Galaxy Tab S6 and Galaxy Tab S5e).

Productivity everywhere

All-new BLE S Pen lets you multitask like a pro (Galaxy Tab S6 only).

Pause a video, record a memo, advance the slide or jump back to the beginning, all at the press of a button. Annotate in real time, handwritten notes that convert to text, and edit with precision. And the new S Pen magnetically attaches to the Galaxy Tab S6 for easy storage and charging.

Samsung DeX gives you a powerful desktop-like experience. Samsung DeX makes any place a work space. Simply attach the optional keyboard cover, and Samsung DeX transforms your Galaxy Tab S into a powerful desktop-like experience.¹

Powerful, long-lasting battery. Power for up to 15 hours (Galaxy Tab S6) means your team is always ready.²

Enterprise-ready security and manageability

Defense-grade security. Galaxy Tab S tablets are protected by Knox, our security platform built from the chip up for superior protection.³ And the Galaxy Tab S6 optical on-screen fingerprint sensor distinguishes between real and fake fingerprints and works even in bright sunlight, so you, and only you, can access your business data.

Management made easy. Knox Manage is a cloud-based EMM solution with an affordable license fee that lets you restrict access to certain apps or websites, and remotely wipe and support devices.

Easy changes and updates. Knox Configure lets you remotely provision and customize numerous devices, push security patches and deploy application updates. Built-in Enterprise Firmware Over-The-Air (E-FOTA) lets you control firmware and OS updates while devices stay in the field.
