Charge, Sync, Secure & Organize All Your Mobile Devices

Whether it's tablets, Chromebooks, laptops or smartphones, mobile devices have influenced every organization. As devices continue to multiply, charging and storing them becomes a difficult problem that calls for a purpose-built solution.

Available as wall-mountable cabinets and carts, Tripp Lite charging stations deliver outstanding value where mobile devices are being used, including education, healthcare, retail, commercial, industrial and office settings. They secure up to 48 devices inside a locking steel enclosure, providing high-speed USB or AC charging, convenient syncing, comprehensive protection, clutter-reducing organization and flexible deployment.

“Judges ranked the charging station as sturdy, compact and easy to use. They also praised the efficient use of space for technology storage.”

– Tech & Learning

CSC32USB USB Charging Station Cart

- Solid Worktop
- Protective Shelves with Removable Dividers
- Wide-Grip Handle
- Locking Steel Enclosure
- Durable Powder-Coated Finish (Black or White)
- Built-in Cord Management with Protective Grommets
- Input Cord Wrap
- Extra-Secure 3-Point Lock
- Flow-Through Ventilation
- Easy-Access Doors (Open 180°)
- Locking Swivel Casters with Large, Non-Marking Wheels
- Hasp for Optional Padlock
- Toolless Access Panel (Conceals USB Charging Ports and Cord Clutter)

HIGH-SPEED CHARGING

- USB charging stations provide up to 2.4A per device for 16, 32 or 48 tablets, including iPad and Android models.
- AC charging stations provide dedicated AC outlets for 16 or 32 Chromebooks, laptops or tablets.

USB charging stations provide the fastest charging supported by each device, up to 2.4 amps per port, increasing availability of in-demand devices. The full 2.4 amps is available through every port, even when they're all in use. Especially suitable for iPad, Android, Surface and Kindle tablets, USB charging stations can also charge smartphones and other USB devices.

AC charging stations provide a dedicated outlet for each device's power adapter. They can charge a variety of devices, including Chromebooks, laptops and tablets, supporting up to 1,440 watts total.

USB charging stations provide up to 2.4 amps per port.

AC charging stations provide a dedicated outlet for each device.

CONVENIENT SYNCING (USB Models)

Connect the USB uplink port to a computer to sync devices. High-bandwidth wired syncing is helpful for updating software, backing up data and returning tablets to standard configurations – without congesting busy Wi-Fi networks. Charging stations are also compatible with wireless syncing.

The USB uplink port connects to a computer for device syncing.

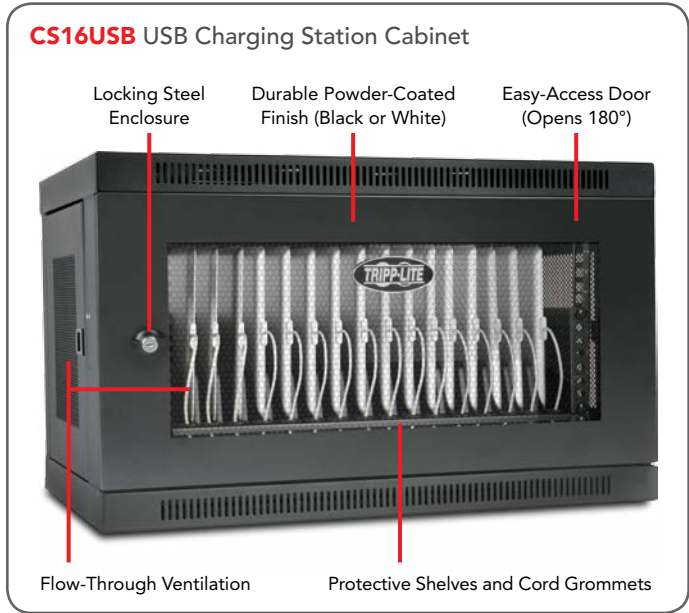

CSC16ACW AC Charging Station Cabinet

The diagram shows a white metal cabinet with its doors open, revealing internal shelves and AC outlets. Red lines connect labels to specific features:

- Locking Steel Enclosure**: Points to the left door.
- Flow-Through Ventilation**: Points to the perforated mesh on the left door.
- Durable Powder-Coated Finish (Black or White)**: Points to the cabinet's exterior.
- AC Outlets for Device Power Adapters (Hidden by Toolless Access Panel)**: Points to a panel on the bottom front.
- Solid Worktop**: Points to the top surface.
- Wall-Mount Slots**: Points to slots on the interior back wall.
- Protective Shelves with Removable Dividers and Built-in Cord Management**: Points to the internal shelving.
- Support for Mobile Cart Conversion**: Points to the bottom of the cabinet.
- Extra-Secure 3-Point Lock**: Points to the locking mechanism on the right door.
- Easy-Access Doors (Open 180°)**: Points to the right door.

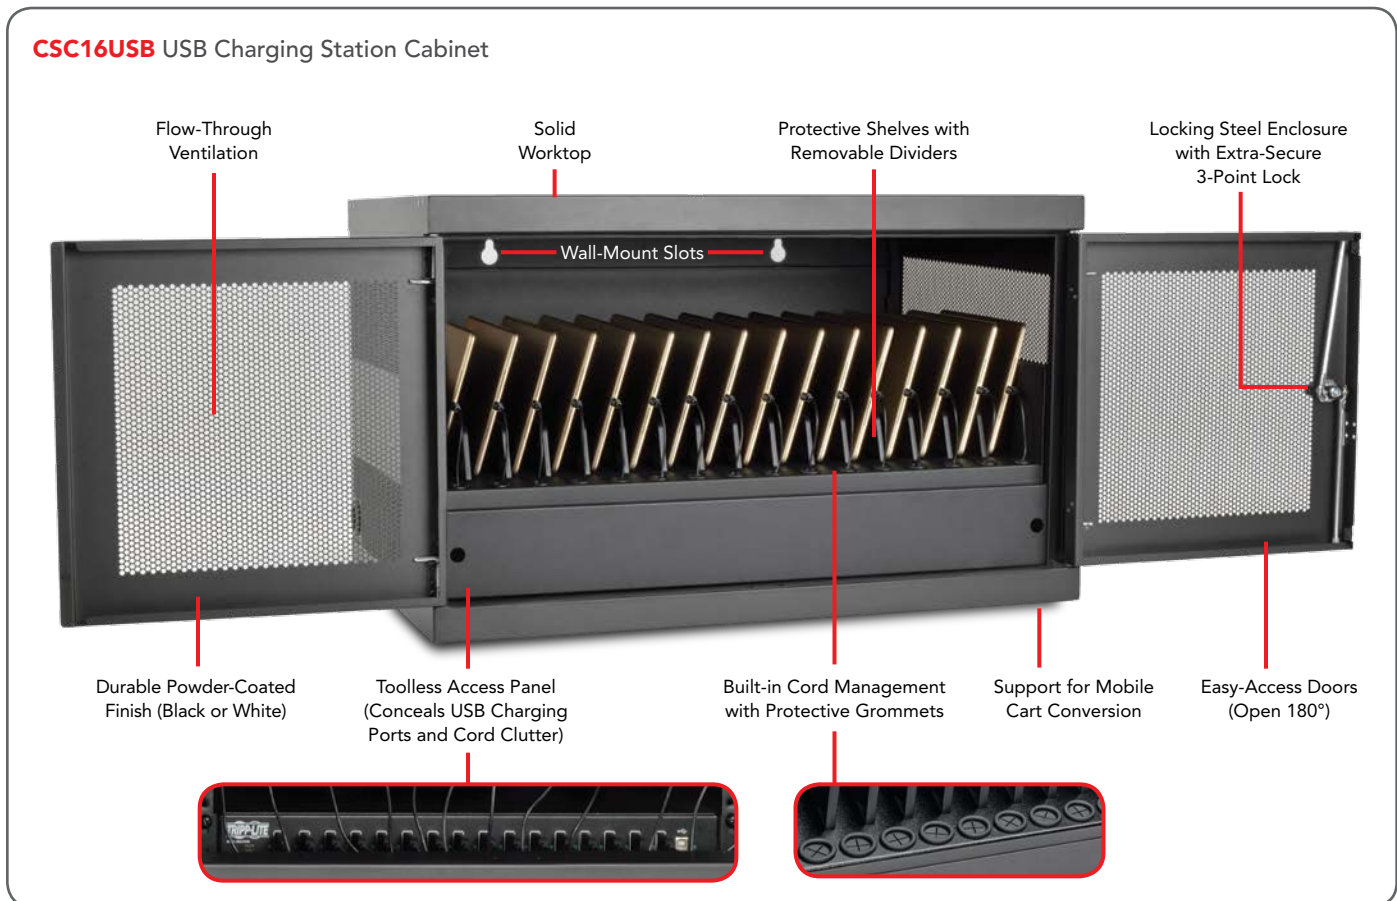

COMPREHENSIVE PROTECTION

- Steel enclosure locks securely with included keys to help prevent device theft, damage or tampering.
- 3-point lock latches doors at top, middle and bottom.
- Powder-coated finish promotes long-term durability.
- Flow-through ventilation helps prevent overheating.
- Protective shelf coating helps prevent device scratches.
- Rubber grommets help prevent cord damage.
- Padlock hasp and cable/chain lock ports support supplemental user-supplied locks (CSC models).

CLUTTER-REDUCING ORGANIZATION

- Device slots hold laptops up to 17 in. (CSC models).
- Device dividers remove to fit larger devices.
- Built-in cord management reduces cable clutter.
- Doors open 180° for improved access to devices.
- Toolless access panels conceal cord slack, outlets/ports and power adapters, but remove easily for access.
- Staggered outlets fit most power adapters without blocking adjacent outlets (AC models).

FLEXIBLE DEPLOYMENT

- Charging stations are available as mobile carts and as cabinets that support optional cart conversion.
- All models include rear wall-mount slots and also support placement on desk, table, counter or floor.
- All models arrive ready for quick deployment, with minimal assembly requirements.

CONVENIENT MOBILITY (CARTS)

- Reversible wide-grip handle assists cart control.
- Swivel casters with large, non-marking wheels improve ride over uneven surfaces.
- Casters lock to help prevent unwanted movement when cart is stationary.
- Reversible cord wrap stores input cord when moving from room to room.
