

Adobe Creative Cloud licensing overview

Flexible licensing options for primary and secondary schools and districts.

Bring Adobe Creative Cloud to your school or district with affordable, easy-to-manage licensing options available through the Adobe Value Incentive Plan (VIP). You'll enhance teaching and learning while helping students develop essential digital skills for college and career success.

Benefits include:

Universal access for all ages

Give your students, teachers, and staff access to the latest industry-leading creative software so they can design, share, and publish compelling content across all media and devices. And now, students under the age of 13 can have their own Creative Cloud accounts provided that your school deploys in accordance with COPPA and other legislation.

Budget predictability

A low-cost, flat-fee, single-license purchase with one annual or multiyear contract for devices owned or leased by the school, and users attending or working for the school.

Flexible deployment and management

Designed for an individual school or district, licensing options offer a web-based Admin Console that makes it easy to centrally manage and deploy licenses.

Classroom and home use

Schools can use shared device licenses to allow anyone to access Creative Cloud apps on a given device in the lab or classroom. Shared device licenses also allow those with their own paid subscriptions to log into entitled machines and access their profiles and saved work. With named-user licenses, schools can give a student or teacher access to Creative Cloud on any device they use, including personal devices at home.

Free instructional resources

Get your educators up to speed on Creative Cloud apps so they can ignite students' creativity. The Adobe Education Exchange offers free professional development and peer-to-peer collaboration, and the Adobe for Teachers site delivers curriculum and classroom project ideas.
