

Strategic Consulting.

Leveraging Technology Innovation for Competitive Advantage

As businesses are trying to adapt to compete in a rapidly changing mobility environment, IT organizations are struggling to keep up with the rate of device innovation to support business goals.

With a special focus on the impact of mobile devices in your environment, SHI's Strategic Consulting practice helps you design a strategy for leveraging new technology products and services to maximize your business advantage.

Deploy

Deploying iOS devices with SHI is a seamless process from procurement to delivery. With in-house capabilities that are unrivaled in the marketplace, a large iOS configuration team and breadth of exposure with deploying mobile devices, SHI offers extensible solutions to meet your corporate deployment requirements.

Manage

By controlling the data and configuration settings for all mobile devices in the network, mobile device management can reduce support costs and business risks. SHI has an extensive amount of experience in deploying, managing and securing your mobile devices with all of the latest MDM solutions for iOS.

Secure

iOS provides industry-standard networking protocols that provide secure access to your network and encryption of data in transit. SHI can support your needs for a secure iOS deployment throughout your workforce with infrastructure assessments, MDM integration services and secure data access solutions.
