STREAMLINE PUBLIC SECTOR WORKFLOWS

LAW ENFORCEMENT

- Instantly decode data from all 1D and 2D barcodes
- Reliably scan licenses and registrations to streamline eCitations, eCrash reports, and roadside checks

EVIDENCE TRACKING

Facilitate accurate chain-of-custody and asset tracking for all critical case information and forensic evidence.

DMV, MVD & BMV

Populate applications with info from any state driver license, regardless of current or future AAMVA standards.

AGE VERIFICATION

Quickly read and display parsed data from any state-issued driver license, ID card, digital ID, or military ID.

SPECIALTY APPLICATIONS

Customize or develop a self-contained barcode reading solution for quick and easy integration of barcoded data into any existing software application.
