

Identity Accelerator

Identity Governance & Administration

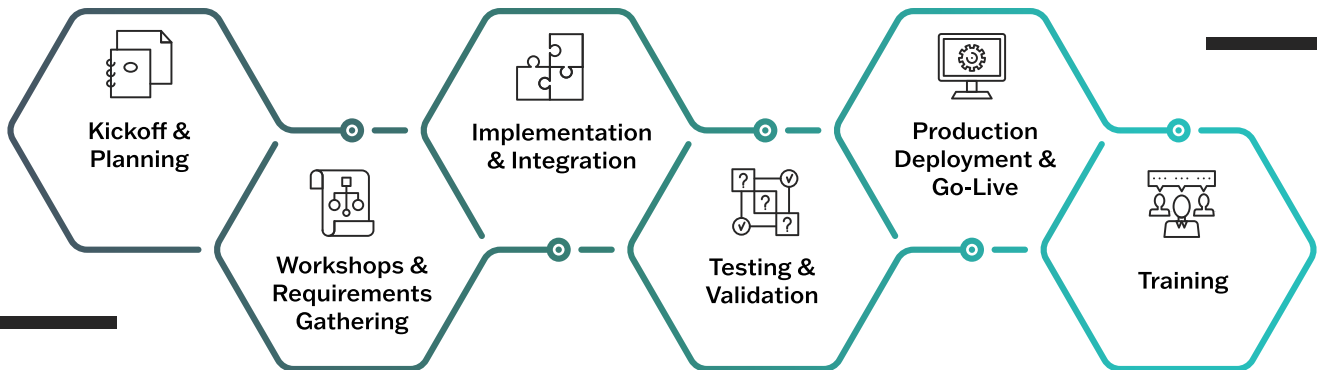

Reduce identity-related risks and strengthen your defenses by using Stratascale's Identity Accelerator to speed and simplify the adoption of a modern IGA platform.

Rapid Results & Lasting Value

Stratascale will help you maximize your investment in a modern IGA platform by taking a business-centric approach to implementation. This ensures all steps in the identity lifecycle are accounted for and aligned to key platform functionality and organizational goals. This includes initial cloud platform standup, provisioning based on business-specific operations, and integration to critical HR systems.

But Stratascale practitioners do more than just guide implementation – they execute against robust deployment and training plans to ensure you experience a smooth, successful implementation that drives lasting impact.

Identity Governance. Accelerated.

Time to Value

A robust but streamlined delivery approach ensures you start realizing value quickly.

Integration with Leading Platforms

Seamless integration with HR and ITSM systems like Workday and ServiceNow.

Outcome-Driven Workshops

Workshops for HR and ITSM integration, defining clear deliverables and project timelines.

Predictable Pricing

Transparent pricing and scope based on the number of applications and users.

Remote Delivery

Virtual workshops and delivery processes that offer flexibility and convenience.

Unified Approach to Identity Security

We believe effective identity security is achieved through the implementation of both IGA and PAM solutions. Explore our Identity Accelerator for PAM to experience the advantage of a unified approach.
