

# Bring the power of Gemini to your LMS

## Access the Gemini app, NotebookLM, AI training courses and emerging AI tools right within your LMS with Gemini LTI™

Gemini LTI™ is available to Canvas by Instructure and Powerschool Schoology Learning users free of charge, and includes:

### Gemini app

#### Save time on research

Ask Gemini to summarize recent articles or research papers and provide key insights.

#### Create captivating learning experiences

Have Gemini infuse topics that spark student interest into assignments.

#### Boost understanding

Get Gemini to provide immediate assistance, practice quizzes, and feedback on your work.

#### Get trustworthy content

Gemini cites its sources and has a Google Search double-check feature to help you check the output for accuracy.

### NotebookLM

#### Understand anything with AI grounded in your sources

Upload course material and NotebookLM can answer questions, provide summaries and generate content.

#### Get helpful responses with in line citations

NotebookLM cites its sources and provides links to the resources you uploaded.

#### Listen and learn on the go

Turn your sources into engaging recordings in one click with the Audio Overview feature.

Hello, Megan.  
Gemini for Cymbal Academy

#### Generate and share market insights

MEMORANDUM  
To: Interested Stakeholders  
From: [Your Name]  
Date: February 14, 2024  
Subject: Autonomous Vehicle Industry - Global Market Trends

#### Reach out for fundraising

Here's a fundraising email draft, including several subject line options and a final call-to-action paragraph tailored to your specific venture.  
Fund's Focus: [Your Focus]  
Subject Line Options:

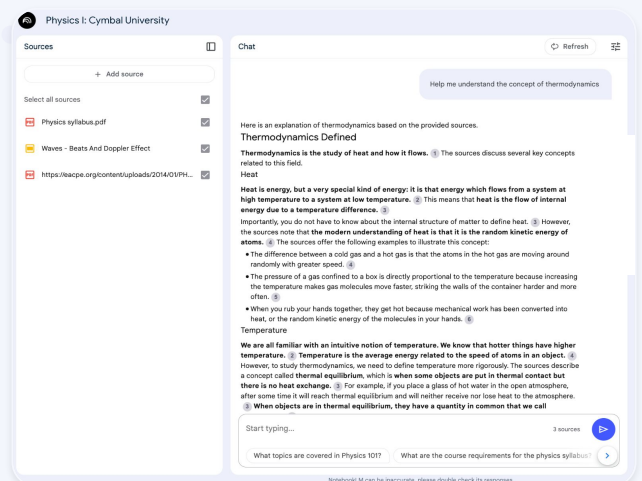

#### Find inspiration for your new logo

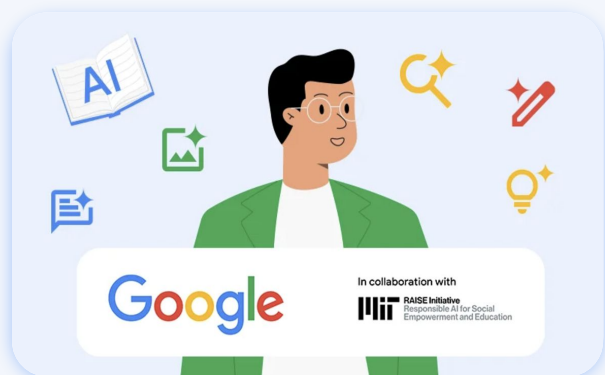

#### Research business opportunities

Efficiency  
• AI-Powered Inventory Management: Machine learning algorithms can analyze sales trends, historical data, and even local weather patterns to predict

Enter a prompt for Gemini

**Gemini LTI™ also unlocks access to these resources,  
easily available in your LMS:**

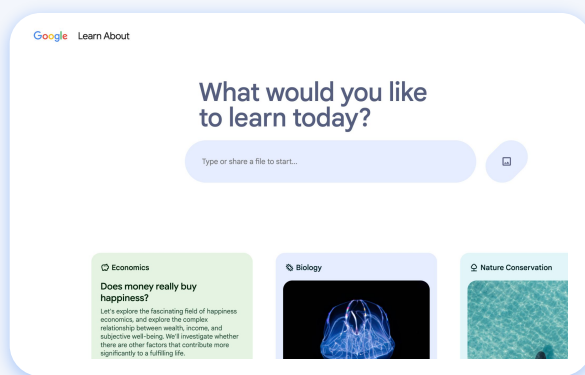

### AI training material

#### Get started confidently

Build generative AI skills and encourage professional development and student growth with [Generative AI for Educators](#) training, [A Guide to AI in Education](#), [Gemini Academy](#), a Grow with Google [AI essentials course](#) and more, at no cost.

### Emerging AI tools

#### Experiment with the latest in AI

Try out Google's latest AI education experiments from [Google Labs](#). Try [Learn About](#) to help you learn about topics at your own pace, or deepen your understanding with [Illuminate](#) by turning papers into audio discussions.

### Enhanced privacy and security

Your data is not used to train AI models

Your data will not be reviewed by anyone

### What are people saying?

#### About the Gemini app

"The only major platform to create a specific experience for teens... with additional safeguards, content policies, and in-product experiences."

[Common Sense Media](#)

#### About NotebookLM

"It's one of the most compelling and completely flabbergasting demonstrations of AI's potential yet." [Wall Street Journal](#)

**Get the most out of  
Gemini LTI™ with Gemini  
for Google Workspace**

[Gemini for Workspace](#) embeds Gemini into the apps you already know and love, like Docs, Gmail, and Slides, and provides access to chat with Gemini Advanced using our most capable AI models. **Contact your reseller to learn more.**
