

Pixel & Enterprise

Pixel 10 phones are the scalable smartphones built with Enterprise in mind.

Complete with advanced AI features, powerful processing, and multiple layers of security - so your business can do more.

AI & Productivity

Smarter AI, so you spend less time on routine tasks.

- **Gemini** helps your team do more with less effort, from crafting emails to summarizing your inbox.[‡] It can help you search across your apps, generate creative ideas, make plans, or find the precise information you need.
- **Gemini Gems** are custom versions of Gemini that give tailored responses designed to help you with specific tasks, like writing or coding.^⁰ You can also create a new Gem from scratch using instructions you set.
- Get up to speed on just about anything with **Deep Research**, an agentic feature in Gemini that can automatically browse up to hundreds of websites on your behalf, think through its findings, and create insightful multi-page reports.^{ⁱ¹}
- With **Audio Overview**, Gemini can transform your documents, slides, and Deep Research reports into a podcast-style conversation.
- Gemini seamlessly connects with Google apps to help you get things done faster. **Gemini Apps** enable you to take action across apps like Gmail, Calendar, and more without switching between screens.^⁰
- **Live Translate (Voice)** can help break down language barriers by translating what each caller says using the sound of their voice.^{ⁱ²}
- **Magic Cue** simplifies your digital life by anticipating and proactively suggesting relevant information and helpful actions.[□]
- **Pixel Screenshots** help you save, organize, and recall information. Screenshot to save anything you see on your screen, then find it by asking for what you need in natural language.
- **Pixel Recorder App** automatically records and transcribes speech in real time.^{ⁱ³} Get automatic, AI-generated summaries of your recordings, and transcriptions with speaker labels.
- Pixel 10, Pixel 10 Pro, and Pixel 10 Pro XL have batteries that last **over 24 hours** with regular use, or **up to about 100 hours with Extreme Battery Saver**.[†] Pixel 10 and Pixel 10 Pro charge to **55% in around 30 minutes**. Pixel 10 Pro XL charges to **70% in around 30 minutes**.[†]
- Pixel 10 phones now have **Pixelsnap** Qi2 magnetic technology, for more efficient wireless charging that snaps into place.^{ⁱ⁴} You can also choose from a variety of magnetic accessories, including stands, grips, wallets, and more.^{ⁱ⁵}

Privacy & Security

Help keep your data safe, private, and secure with Pixel.

- **Multiple layers of security** help keep business data safe and secure. The **Google Tensor security core** works with the certified **Titan M2™ security chip** to make your device even more resilient to attacks.[†]
- Pixel improves over time with **7 years of Pixel Drops, OS, and security updates**.^Δ These regular updates provide new features, enhanced security, and system improvements, so you can use your phone for longer.
- Configure your fleet in one go with **Android Enterprise Device Management**. Distribute company apps in one place, set the level of oversight on each device, and customize access to specific data and materials.
- **SecurityLog** lets IT teams review security logs easily with the latest audit logging requirements.
- With **Satellite SOS**, you can contact emergency services via satellite and share location updates with colleagues and emergency contacts when out of cellular coverage.[¶]
- With **Security and privacy settings**, you can change security settings and get recommendations to help improve your security, all in one place.

 **Note:** Some features require Android Enterprise.

Call Assist

Fewer unwanted calls. Less waiting on hold.

- **Call Notes** records and saves a private summary of your conversation after a phone call. So, if you need information like a meeting time, an important address, or a phone number to call back, turn on Call Notes and all the details and transcript will be available in the call log.^ψ
- **Call Screen** screens incoming calls in real-time, helping you avoid spam and unwanted calls. This AI-powered feature identifies potential scams and lets you respond without picking up.[Ⓞ]
- **Hold for Me** frees up the owner or staff member to perform other duties while Google Assistant waits on hold.^Σ
- **Direct My Call** speeds up navigating essential automated phone systems and reduces time wasted on calls.^Ξ
- With **Clear Calling**, Pixel uses Google AI to filter out background noise from incoming calls, so you can hear the person on the line clearly, even if they are in a crowded or noisy place.[Ⓟ]

Android Theft Protection

Secure stolen devices with a suite of proactive security features.

Theft Detection Lock uses machine learning to automatically lock a device if it detects theft.

Offline Device Lock secures the device if it's disconnected from the network for too long.

Remote Lock lets employees enter their phone number on android.com/lock to lock their device from anywhere.

Android Enterprise

Android Enterprise helps businesses of all sizes streamline device rollout, simplify management, and strengthen security.

- **Pixel is Android Enterprise Recommended:** Pixel meets Google and Android's strict requirements for hardware, software deployment, security updates, and user experience for business use.[‡]
- **Zero-touch Enrollment:** Deploy any number of company-owned devices at once, remotely and at scale. With zero-touch enrollment, employees can just unbox and get started.[‡]
- **Security:** Android puts you in control of every device in your fleet at once. Deploy devices and configure settings the way you want. Distribute only the apps that your employees should use.[‡] Additionally, Android Enterprise's new **Device Trust** solution gives businesses a new way to verify and secure any Android device used for work before granting access to sensitive data, managed or not.[‡]
- **Management:** Support any business use case, from fully managed work phones to personal devices with limited oversight. Android adapts to your organization's mobility needs.[‡]

Enterprise Customers

Want a device that can be easily deployed and managed, and comes with enterprise-grade security and time-saving features.

- **Protect your clients' data.** When handling extremely sensitive data you need devices to receive the latest security updates as soon as they are available.

Features to highlight: 7 years of OS and security updates, SecurityLog, Multiple layers of security.^Δ

- **Work onsite or on-location.** A large portion of employees work in both frontline and office settings, requiring a device that can perform in both environments.

Features to highlight: Clear Calling, Satellite SOS, Durable Design.^{ΦЯЧ}

- **Reliability at scale.** Due to the vast scale of enterprises like big box retailers, downtime of devices and systems is extremely costly.

Features to highlight: Android Enterprise Device Management, Device Trust, Zero-touch Enrollment.^{‡X}

Quick Stats

Organizations leveraging AI for **dynamic pricing optimization** have seen a **10-20% increase in revenue**.

60% of companies are planning to **boost their AI investments** in the near future.

Every time a company **invests \$1 in gen AI**, the **average ROI is 3.7x**.

- [◌] Available on select devices, languages, and countries. Works with compatible accounts and some features may not be available based on corporate account settings. Check responses for accuracy.
- [†] Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower. Over time, Pixel software will manage battery performance to help maintain battery health as your battery ages. See g.co/pixel/battery-tests and g.co/pixel/batteryhealth for details.
- [⌚] Wired charging rates are based upon use of the Google 45W USB-C® Charger plugged into a wall outlet. Actual results may be slower. Adapters sold separately. See g.co/pixel/battery-tests and g.co/pixel/batteryhealth for details.
- [⌚] Compared to Qi 1.0 wireless charging. Requires Qi 2.0-certified wireless charger (sold separately).
- [⌚] Chargers and magnetic accessories each sold separately.
- [⌚] Common Criteria certification for hardware and cryptographic library (CC PP0084 EAL4+, AVA_VAN.5 and ALC_DVS.2). See g.co/pixel/certifications for details.
- ^Δ Pixel updates for 7 years from when the device first became available on the Google Store in the US. See g.co/pixel/updates for details.
- [⌚] Off-the-grid emergency calling via satellite. Restrictions apply. Setup required. Service included at no additional charge for the first two years after activation of devices. Available in the US. Connection and response times vary based on location, site conditions, and other factors. See g.co/pixel/satellitesos for details.
- [⌚] Works on calls at least 30 seconds long. Not available in all languages or countries. Requires compatible Pixel phone. See [here for more details](#).
- [⌚] Available in select countries and languages. See g.co/pixel/callassist for details.
- [⌚] Not available in all countries or languages. Availability and call quality depends on environment, carrier network conditions, and many other factors. Actual results may vary. See g.co/pixel/callassist for details.
- [⌚] Availability and call quality depends on environment, carrier network conditions, and many other factors. Actual results may vary.
- ^{*} Some features require Android Enterprise.
- [⌚] Designed to comply with dust and water protection rating IP68 under IEC standard 60529 when each device leaves the factory but the device is not water or dust proof. The accessories are not water or dust resistant. Water resistance and dust resistance are not permanent conditions and will diminish or be lost over time due to normal wear and tear, device repair, disassembly or damage. Phone is not drop/tumble proof and dropping your device may result in loss of water/dust resistance. Damage from drops, tumbles, and other external forces are not covered under warranty. Liquid damage voids the warranty. See g.co/pixel/water for details.
- [⌚] Device Trust from Android Enterprise solutions are built and offered by third-party providers integrating into the Android Management API. Exact features may vary depending on third-party integrations. Access on unmanaged devices requires user consent to use the Android Device Policy app. Device Trust from Android Enterprise is supported on Android 10 and above.
