Product Summary

Tungsten Power PDF Advanced

The Leading PDF Software
Built for Business Users

The Ideal Enterprise PDF Solution

Tungsten Power PDF™ is the perfect document management tool for all business users—a single product that's easy to use for simple tasks, and robust enough to handle the most demanding requirements.

Power PDF Advanced Advantages

Immediately familiar user interface enables quick adoption and boosted productivity

With a Microsoft® Office-style ribbon, Power PDF Advanced provides ease-of-use familiarity enhanced by customer input over twenty years. The Quick Access Toolbar lets you conveniently create shortcuts to features and capabilities.

Superior document conversion accuracy saves time and effort

The latest Tungsten OmniPage OCR delivers peak performance in converting PDFs and scanned files to Microsoft Office. Find quicker results in two ways: pinpoint text accuracy on poor images saves time proofreading, and superior format accuracy reduces manual effort in correcting headers, footers, numbering, tables and more.

Tungsten SignDoc® delivers complete electronic signature functionality within Power PDF

Tungsten SignDoc integrates directly into Power PDF, delivering end-to-end electronic signatures and verification with no separate web application required, improving efficiency and security (separate purchase is required for full integration).

New: Collaboration Server (Advanced Volume only)

Work together across the enterprise and around the world Enterprise users can collaborate on PDF documents in real-time across the enterprise, in the office and remotely, supporting dynamic teamwork and a seamless workflow.

New: Deployment via Power PDF Advanced Volume Subscriber Access License (SAL) Server (Advanced Volume only)

Deploy Power PDF with SAL licensing to Windows named users via License Server to support compliance and availability for user and term management (term pricing available). SAL enables true oversight of license accounting and server-based expiration dates.

New: Fuzzy Search capability

Perform a Google-like proximity search instead of exact search. Expand your results to find typos, different word orders, etc.

New: Power PDF Mobile

Collaborate on any device, anywhere at any time. View and work with PDF files whether you are on a Microsoft Surface or an Apple iPad. View, markup, sign, and send to print directly from your device. Supports iOS 13.6+ and Android OS 8.1+ devices.

Benefits of Power PDF Advanced

Don't labor over PDF conversion to Microsoft Office

Converting the text and then spellcheck quickly fixes text errors. Don't worry about formatting errors—Power PDF vastly boosts productivity by delivering the finest format fidelity in Microsoft Word®, Excel® and PowerPoint®.

Utilize latest PDF security and enterprise rights management

Protect PDFs with password permission and certificate security controls up to 256-bit AES encryption. Support for Microsoft Information Protection Services and Microsoft Azure Rights Management Services.

Redact sensitive information and remove metadata

Dependable and flexible redaction via pattern search and metadata scrubbing to protect confidential information.

Automate repetitive action sequences with batch and watched folder processing

Employ watched folders for automated creation of PDF from all supported source files. Use batch processing with sequences for sophisticated document actions like extracting pages by search terms.

Key Benefits

- Work intuitively in a familiar Microsoft Office-style user interface
- Create PDF documents compliant with the latest PDF 2.0 and PDF/A-4 standards
- Convert all PDF files to Microsoft Office with best-in-industry text and format recognition
- Convert static to fill-able PDF forms in a single click
- Scan paper documents and in one step, render as Searchable PDF
- Assemble documents from Microsoft Office and image files via page preview selection
- Edit text and images with ease
- Employ the latest PDF security up to 256-bit AES High Security encryption
- View, markup and sign PDFs on iOS and Android mobile devices

System Requirements

- 1.5 GHz or faster processor
- Supported operating systems:
 - Windows 10; 32-bit and 64-bit editions
 - Windows 11
 - Windows 10; 32-bit and 64-bit editions
 - Windows 8.1; 32-bit and 64-bit editions
 - Windows Server 2012 R2, 2016, 2019, 2022
- Citrix® Virtual Apps, Citrix XenApp, Windows Remote Desktop Service
- 1 GB of memory (RAM) or greater
- 1 GB of free hard disk space for application files.
- Web access needed for product registration, activation, product help, and obtaining live updates for the program.
- Microsoft .NET Framework 4.8. If it is not detected, it's installed with the product.

Note: Performance and speed will be enhanced if your computer's processor, memory and available disk space exceed minimum requirements.

Integrate Power PDF with document management systems

User Power PDF integration with Microsoft SharePoint®, iManage Work® and eDOCS®. Connect to Box®, DocuShare®, Dropbox™, EMC Documentum®, EnterpriseConnect, Evernote, Google Drive®, HP Trim®, NetDocuments®, OnBase®, OneDrive® and Worldox®.

Intelligently manage how you assemble documents

Assemble new PDF documents from Microsoft Office and image source files by selecting pages from a visual preview. Remove blank pages with the enhanced sequencer and extract pages based on your search results—a huge timesaver compared to combining entire files and editing manually.
