

We're providing smarter technology for a brighter, more sustainable future.

As the world's #1 PC manufacturer,
we believe we have a responsibility to
deliver sustainable **technology** for all.

5 ways we're building a more sustainable future

1 Packaging

Since 2008, we've
**eliminated more than
3,100 tons** of packaging
by weight.

3,100

Our ingeniously designed
tapeless boxes help **reduce**
our use of **plastic tape**.

2 Energy conservation

We exceeded our first-generation emissions
reduction target a year ahead of schedule and set
new science-based targets that are externally verified
to support global scientific goals.

In support of these goals:

We plan to **eliminate
1 million tons of greenhouse
gas emissions** from our
supply chain by 2025.

30%

ThinkPad® laptops
will be **30% more
energy-efficient**
by 2030.¹

3 Recycled materials

Lenovo leads the industry in using post-consumer content
(PCC) plastics, like water bottles and other used consumer
products, to manufacture devices and accessories.

We've used more than **110 million pounds
of net recycled plastics** in our products
and packaging since 2005.

By 2025, **100% of our PC products**
will contain post-consumer
recycled materials.²

100%

The Intel® Evo™ platform powered by Intel® Core™ vPro® processors
is used in Lenovo ThinkPad products. The processors are made with
post-consumer recycled content and 100% conflict-free minerals.

4 Circular economy

Reverse supply chains help us reintegrate products
and parts that still have life or that can be repaired or
refurbished for further use.

We're on track to **recycle and
reuse 800 million pounds** of
end-of-life products by 2025.³

800M

Lenovo's Device as a Service (DaaS)
initiative helps clients optimize their device
catalogs. This can help them more
efficiently manage their device portfolios
and, in some cases, lower the number of
devices needed per employee, which
reduces environmental impact.

5 Social impact

75%

Inclusive design experts will **vet 75% of our
products** to ensure they work for everyone,
regardless of physical attributes or abilities.

By 2025, the **Lenovo Foundation**
will have **impacted 5 million lives**
around the globe.

¹ For more information, please see the [climate change section](#) of our website.
² Excludes tablets and accessories.
³ Cumulative total since 2005.
