# It's Time to Go Hybrid

**Empower your workforce with modern Lenovo devices and Windows 11 Pro for business.**

There's no denying it – hybrid work is here to stay.

According to Microsoft's most recent Work Trend Index research, 51% of people want a job that gives them the option to be fully remote[1]. However, a hybrid experience is the overall first choice.

**Windows 11**

## The IT Challenge

83% of IT leaders expect at least half of future work to happen outside a traditional office.[2] This will challenge IT teams to completely re-define their digital infrastructure and make hybrid work feel more natural. To be successful, your organization needs top-notch hardware and software that not only empowers hybrid work, but helps improve the employee experience.

### Windows 11 Pro for Business

**Make hybrid work effortless.**

With reliable performance, airtight security, and cutting-edge new features, Windows 11 Pro for business is designed for hybrid work. However, this versatile solution can be easily deployed across all teams – whether hybrid, remote, or on-premises.

### Ideal for IT Teams

Equip and support your hybrid workforce with:

- Built-in, hardware-based security
- Cloud-based management
- Seamless app compatibility
- Secure remote deployment

### Intuitive for Employees

Improve collaboration and focus with new:

- Automatic framing
- File sharing from the taskbar
- Intelligent noise cancellation & background blur

### Next-Level Security

Windows 11 is Zero Trust ready with new built-in default security settings including hardware-based isolation, encryption, and malware prevention. Pair this with Lenovo ThinkShield to fortify the hybrid workplace by securing your fleet from chip to cloud through each lifecycle stage.

### Productivity & Collaboration

Lenovo devices offer the reliable performance needed to thrive in today's fast-paced workplace. Couple this with the innovative hybrid work features of Windows 11 to improve productivity and collaboration across remote, hybrid, and on-premises teams.

### Simplicity & Low Total Cost of Ownership

Take the stress out of remote deployment with Windows 11 and Lenovo. Windows 11 is equipped with features to promote simplicity and low total cost of ownership at every turn, including Universal Print, 99% app compatibility, and Windows Autopilot zero-touch deployment, which allows employees to simply unbox their Lenovo device and start working.
