It's time to make the world your office

After a decade of transformation, 85%* of companies report that remote working has drastically improved their workforce productivity.

Remote workers log more hours, take fewer breaks and sick days, are healthier, happier, and most importantly more productive.

Despite these promising results, we are still far from realizing the potential of remote working. Every day, remote workers battle with limitations and distractions that their office-bound counterparts do not.

Noisy environments. Devices that are slow to set up. Limited power access. Poor ergonomics. They're all part of the daily struggle of a remote worker. And they're all productivity killers.

So how can you make sure your teams are always running at peak productivity? Give them the tools and technology they need to make the most of remote working. That's what **Lenovo Go** is all about – helping people to make the world their office.

Lenovo

Work your way with Lenovo Go

Those who lead the remote work revolution believed that giving workers more choice would pay off.

And they were right.

Today,

83%^{*} of U.S. businesses have
either adopted a remote
work policy or are planning to.

But there's a problem.

The world is not designed to support remote work, which means workers constantly battle with their technology and environment. This bottleneck is stopping us from achieving the full potential of remote working.

Lenovo Go aims to bridge the gap between expectations and reality with a suite of innovative remote-first solutions.

Lenovo Go innovative inputs

Portability. Performance. Productivity.

When in the office, workers are provided with a range of purpose-built input accessories, but they are not ideal for remote working. The mice and keyboards in the Lenovo Go family feature a range of innovations that make them perfect for dynamic environments. Multi-purpose and multi-device functionality, works on many surfaces, wireless charging, and ergonomic designs - all of these are essential for the modern workplace.

Lenovo

Lenovo Go USB-C Wireless Mouse ^④*

4Y51C21216

The **Lenovo Go USB-C Wireless Mouse** is a testament to remote-first design. More than an ordinary wireless mouse, it's a versatile companion capable of working on almost any surface. It's got all the features you'd expect, too, from adjustable DPI to programmable utility buttons. And with a rechargeable battery that lasts for up to 3 months**, you can trust it'll be ready when you are.

Up to 2400 on-the-fly DPI adjustment

Programmable buttons optimized for VoIP

15 min fast-charge, up to 1 week use

Lenovo Go Wireless Multi-Device Mouse ^④*

4Y51C21217

With many remote workers having more than one device, the **Lenovo Go Wireless Multi-Device Mouse** is a feature-rich solution. Effortlessly pair with up to 3 devices (one via USB-C receiver and two via Bluetooth® with Swift Pair) and cycle between them with a push of a button. Control your experience using the programmable utility button's meeting shortcuts. Refuel your way with multi-option charging via USB-C and wireless Qi.

On-the-fly switch to up to 3 devices

Supports Wireless Qi Charging

Programmable Utility button optimized for VoIP

Lenovo

Lenovo Go Vertical Wireless Mouse ^④*

4Y51C33792

Having your hands flat on a table all day can create both temporary pain and long-term health issues. That's why we designed the **Lenovo Go Vertical Wireless Mouse** to mimic the natural vertical angle of a handshake. Paired with an ergonomic palm and finger rest, this mouse is more than a remote-ready productivity tool.

True ergonomic vertical design

Comfort grip with natural cork

3 programmable buttons

* Supports Lenovo Unified Pairing Receiver.

** Depends on actual usage.

Lenovo Go Wireless Split Keyboard

4Y41C33748 - 4Y41C33790

The **Lenovo Go Split Wireless Keyboard** does away with tradition and combines modern keyboard design with advanced ergonomics. It's a true revolution in workplace comfort, featuring posture-enhancing vertical tenting, negative tilt, and a split design that'll keep you healthy and productive for longer.

True ergonomic split design

Industry-leading tactile and responsive keys

4° negative tilt adjustment

Industry-leading tactile & responsive keys

Supports Lenovo Unified Pairing Receiver

15 min fast-charge, up to 1 week use

Lenovo Go Wireless Numeric Keypad

4Y41C33791

When remote, crunching numbers on a laptop keyboard is a real productivity killer. The **Lenovo Go Wireless Numeric Keypad** was crafted to solve this conundrum and allow you to take a full 21-key, responsive wireless keypad with you wherever you are. You'll rarely have to worry about it running out of juice either, as a 2-hour charge gives you a whopping 3 months** of use.

Lenovo

* Supports Lenovo Unified Pairing Receiver.
** Depends on actual usage.

Lenovo Go dependable power

Rethink. Refuel. Results.

One of the biggest struggles when working remotely is power. Whether it be a low battery, occupied power ports, or power outages – going dark in the middle of a work session is a familiar frustration. **Lenovo Go** remote-first power solutions give you the power to do your best work. Uninterrupted.

Lenovo Go USB-C Laptop Power Bank (20000 mAh)

40ALLG2WWW

A game-changer in remote power. The **Lenovo Go USB-C Laptop Power Bank** is a portable power source sporting a whopping 20,000 mAh capacity. That's enough to charge your laptop at least once and your mobile devices several times over. You can charge up to 3 devices simultaneously.

Quick charging
for 65W notebooks

Dual USB-C
connection

Charge up to
3 devices at once

Lenovo Go Wireless Mobile Power Bank (10000 mAh)

40ALLG1WWW

Wires are like chains to remote workers. That's why we've done away with the frustration of cables and invented a truly wireless portable power bank. With a 10,000 mAh battery and wireless tech, one power source is all you need to provide up to 15W of wireless power to your Qi-enabled devices.

Lenovo Go active audio

Connect. Collaborate. Create.

One of the most frustrating challenges of working remotely is noise. Whether in a cafe, airport, or co-working space - noise is everpresent. When it comes time to focus, listen, and be heard, the technology you choose will make or break your productivity. The audio devices in the **Lenovo Go** family are engineered from the ground up to provide solutions to these challenges, like noise cancellation, acoustic echo control, automatic gain control, and much more.

Lenovo

Lenovo Go Wired Speakerphone

4XD1C82055
