for all

Lenovo

The most versatile product in our ThinkEdge portfolio.

These compact yet powerful devices balance environmental requirements with reliable performance and effortless deployment and maintenance. This technology was created to solve some of the toughest challenges you face when it comes to capturing data at the outermost edge for your business. From extreme temperatures to the most constrained spaces, SE10 users can now scale the spectrums of ruggedness and flexibility thanks to the ground up modular design.

Unconstrained Entry Performance

Intel ATOM dual and quad core processors allow these compact, yet powerful edge clients to perform unconstrained.

Modular Design

The SE10 addresses variations with a ground up modular design, allowing users to scale up and down the spectrums of ruggedness and flexibility.

Easy Deployment and Maintenance

Compatible design to meet VESA, DIN, ThinkCentre Tiny mounting and 3 years life cycle

Environmental Adaptability

Purposefully designed & Mil-STD compliant to be configured to adapt to a broad range of Edge vertical applications

Popular Use Cases:

Retail

Manufacturing

Smart Spaces
