Digital Shelf Headers to Drive Customer Sales

inCap HD Header

Immersive, engaging in-aisle and out-of-aisle displays fit all standard retail shelving and can serve as indoor signage, menu boards, and advertising.

ThinkCentre M90n Nano IoT

Availability: Global

Customer Benefits:

- ✓ Target customers at their item selection point with engaging product information
- ✓ Drive upsells and improve margin with advertising at shelf-level
- ✓ Run up to 24 displays from 1 PC, reducing complexity for your store employees

Delivered in partnership with:

INSTORESCREEN™

Digital Signage to Improve Customer Engagement

Advanced Touch Displays

One of the most versatile, flexible, and appealing professional displays on the market today, this digital signage is integrated with the latest in antimicrobial technology, while maintaining the durability required in high traffic retail installations.

Availability: Global

Customer Benefits:

ThinkCentre M90n Nano IoT

- ✓ **Keep customers and employees healthy with antimicrobial technology**
- ✓ **Use as a form of advertising to inform customers of new products and sales**
- ✓ **Energy efficient & sustainable construction yields immediate energy savings returns**

Delivered in partnership with:

INSTORESCREEN™

Lenovo Computer Vision Turns Existing IP Cameras into Insight-Gathering Tools

AI Panorama Software

The SE70 comes pre-loaded with AWS Panorama a software development kit, which enables customers to train, deploy, and manage computer vision applications at the edge. NVIDIA CUDA SDK optional. This device can power 8 PoE Cameras and has several Digital I/O to connect to sensors like LED lights or Sirens.

Availability: Global

Customer Benefits:

- ✔ Use existing IP camera infrastructure to lower installation costs
- ✔ Equip store employees with the customer knowledge they need to improve the shopping experience
- ✔ Improve workplace safety by identifying unsafe conditions

Delivered in partnership with: 

Tough, Discrete Edge Computing for Any Size Retailer

ThinkEdge SE30

Tackling demanding tasks in extreme environments is what the ThinkEdge SE30 was designed for. Powered by the latest 11th Gen Intel® Core™ i5 vPro® processors for industrial computing and high-speed DDR4 memory, the SE30 is ready-built for challenging edge applications.

Availability: Global

Customer Benefits:

- ✔ Operates in any conditions – from -20°C to 60°C
- ✔ Rugged design ensures uninterrupted efficiency in harsh conditions

Purpose-Built Edge Server for Secure Enterprise- Level Performance

ThinkEdge SE350

The SE350 server-class solution features a compact size to fit in smaller spaces and a rugged construction to handle harsh environments. Coupled with a variety of physical and cyber security options, it offers simplified management via Lenovo XClarity.

Availability: Global

Customer Benefits:

- ✓ Full enterprise performance at an entry-level price
- ✓ Operates in any conditions – from 0°C to 55°C
- ✓ Add-on NVIDIA T4 16GB Passive GPU
