Our partners, your resources.

When it comes to printing and imaging, SHI's partnerships are second-to-none. SHI collaborates with leading manufacturers, software publishers, and service providers to develop and support a custom solution for your organization.

From pre-sales support and solutions architects to workflow expertise and future state roadmaps, we ensure you're getting the best information and support for your environment.

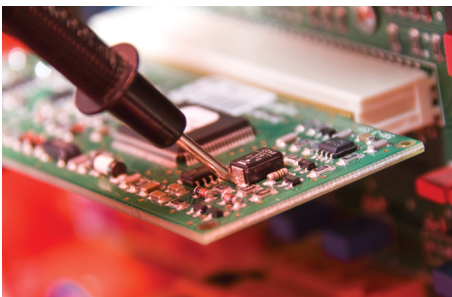

Organizations with diverse, distributed printer fleets enjoy the value of Managed Print Services from SHI. Our program manages production of millions of pages every month with simplified fleet visibility and cost savings.

Large-scale rollouts are now simplified for the enterprise. Beyond device standardization, we plan and fulfill staged deployments based on your operational requirements.

Your content management strategy begins here with our document solutions platform. Our customizable suite helps you digitize, store, manage, and retrieve your documents securely, lowering operational costs and improving efficiencies.

Businesses trust SHI to manage their contracts for service and maintenance. Our team ensures that your service is active, co-termed, and designed to match your service level needs.

Printer consolidation and fleet optimization creates real cost savings. You can spend less on printers and toner while reducing carbon footprint. We'll show you how to do more with less.

Mobility printing solutions offer flexibility for your users to access the documents they need wherever they are. We offer document solutions for iOS, Android, BlackBerry and Windows Phone to complement your mobile device strategy.
