

Staffing Services

Offered by Managed
Workspace Services

Extend your IT capabilities

How does your organization meet its growing challenges without overextending staff or unnecessarily hiring new employees? SHI's Staffing Services are the perfect solution to augment your existing workforce without breaking the bank. Save time, reduce costs, and improve productivity with our staffing services.

Resource options:

- Temporary
- Temporary to permanent
- Direct hire

Benefits

Fast response and dedicated resources

We'll ensure staff is onsite and working on your project in as little as two days, increasing the level of service to your users.

Single point of contact

We'll act as the single point of contact to present candidates, answer questions, and assist with setting up interviews and the onboarding process when a candidate is selected.

Onboarding/offboarding

We'll perform drug and background checks, unless you prefer to handle the process. We will notify the candidate once the assignment is complete and ensure all items are returned.

No hidden fees

We'll search for and suggest candidates to you at no cost. SHI presents candidates' hourly rates and/or desired salaries, along with their resumes, so that all costs are understood prior to setting up interviews.

SHI's recruiting process

SHI can provide your organization with project managers, developers, network engineers, help desk analysts, DBAs, and more. Our IT professionals will help with your project for as long as you need them. We can deploy additional resources to your site as your requirements change or grow over time.

We source the perfect IT professionals for your needs by:

- Obtaining a complete understanding of each assignment.
- Developing a thorough search plan that may include pre-identified targets, organizations, resumes in our database, Internet advertising and searching, and engaging one of our qualified partners.
- Conducting a multiple screening process, which includes our technical recruiter, recruiting manager, and one of our technical resources.
- Checking professional references prior to the client interview.
- Presenting our top candidates to you for review and interview.
