# SHI

## Work from anywhere.

## GAIN INSIGHTS AND EXPERIENCE MODERN MAC MANAGEMENT

### MAC READINESS ASSESSMENT

SHI helps organizations integrate Mac® into corporate environments and ensures connected and configured devices are delivered when and where our customers need them. When you schedule a consultation with our accredited subject matter experts you'll receive advice, meaningful metrics with actionable next steps to overcome roadblocks to Mac adoption at scale.

### BUSINESS PROBLEMS SOLVED

Our consultation and prepared analysis will provide you with an actionable plan towards achieving your organization's goals.

- Network optimization recommendations
- VPN and network posture review
- Configurations impacting remote workers
- Ensure effective device management and support
- Reduce help desk tickets
- Ensure corporate firewall rules are in place

### INSIGHTS GAINED

- Solutions for modernizing identity
- Best practices for profiles, policies and credentials
- Leverage Apple services & device management servers
- Modern device management practices
- Security features built-in not bolted-on
- Migration from older binding practices
- Integrate users, roles and devices
- App compatibility and security

### BENEFITS

SHI helps to optimize macOS® on corporate networks, prepare for adoption of Apple Silicon and the latest operating system, and provides support for employee choice programs.
