

Course Outline

Leveraging Cisco Intent-Based Networking DNA Assurance v2.1 Course DNAAS: 2 days Instructor Led

All Cisco courses are delivered by a Cisco Authorized Platinum Learning Partner

About this course

This 2-day course, Leveraging Cisco Intent-Based Networking DNA Assurance (DNAAS) v2.1, provides you with the skills to monitor and troubleshoot a traditional brownfield network infrastructure using Cisco® Digital Network Architecture (Cisco DNA™) Assurance. The course focuses on highlighting issues rather than on monitoring data. The advanced artificial intelligence and machine learning features within Cisco DNA Assurance enable you to isolate the root cause of a problem and to take appropriate actions to quickly resolve issues. Cisco DNA Assurance can be used to perform the work of a Level 3 support engineer.

Audience profile

- Network administrators
- Network operators

At course completion

After completing this course, students will be able to:

- Explain the benefits of using Cisco DNA Center in a traditional, enterprise network
- Explain at a detailed level the Cisco DNA Center Assurance system architecture, functional components, features, and data-processing concepts
- Explain the health scores, metrics, and strategies that you use for monitoring network devices, clients, and applications with Cisco DNA Assurance
- Describe how Cisco DNA Center Assurance analyzes the streaming telemetry and collected data, correlates the data, performs root cause analysis, and displays detected issues, insights, and trends
- Describe the Cisco DNA Center Assurance troubleshooting tools, mechanisms, strategies, and scenarios to proactively detect and resolve wireless network, client, and application issues and pinpoint the root cause
- Deploy and configure Cisco DNA Center to use Assurance features for monitoring and troubleshooting network devices, clients, and applications

Course Outline

- Introducing Cisco DNA Center Assurance
- Monitoring Health and Performance with Cisco DNA Center Assurance
- Troubleshooting Issues, Observing Insights and Trends
- Troubleshooting Wireless Issues with Cisco DNA Center Assurance Tools

Lab Outline

- Prepare Cisco DNA Center for Assurance
- Monitor Overall Health and the Health of Network Devices
- Monitor the Health of Clients and Applications
- Troubleshoot Network, Client, and Application Issues
- Observer Assurance AI Network Analytics
- Analyze Wireless Allocation, Capabilities, and Threats

Course Outline

- Monitor Wireless Networks with Advanced Assurance Tools
